# WYOMING STATE TREASURER'S REPORT TO SHAREHOLDERS

## Activities, Accomplishments & Programs: 1999-2007

It is with considerable pride in the extraordinary accomplishments of my fine staff for the past eight years that I submit this final report, my tenure as State Treasurer now complete.

I am forever grateful to the people of this great State for bestowing upon me the privilege of serving as State Treasurer. This singular opportunity to serve as steward of the financial assets of Wyoming has been personally gratifying and professionally rewarding. I hope that this brief summary of eight years focused upon

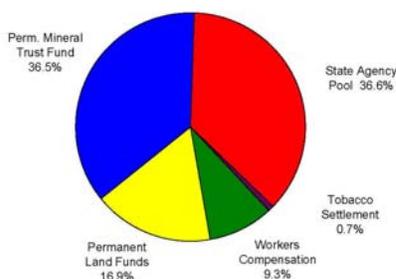

strengthening and diversifying the State's investment portfolio will validate the trust you have placed in my office to skillfully manage Wyoming's money.

I took office in 1999, year thirteen of the bust phase of a boom-bust cycle. Revenue was projected to be \$200 million less than needed to fund the State budget. The State's total investment portfolio stood at \$3.5 billion. Now, eight years later, we project our sixth consecutive year of surplus revenue.

The Permanent Wyoming Mineral Trust Fund now exceeds \$3 billion and the Permanent Land Funds \$1.4 billion, up from \$1.5 billion and \$880 million in 1999, respectively. Investments under management totaled \$8.2 billion at 2006 fiscal year end and exceeded \$8.6 billion in total market value on September 30, 2006, a \$5 billion increase in eight years.

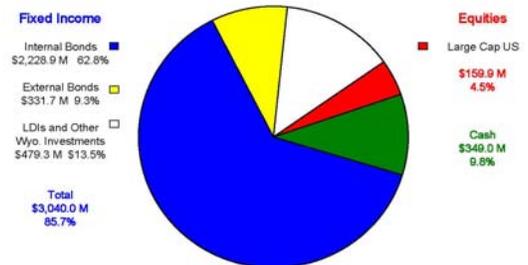

### WYOMING STATE TREASURER'S PORTFOLIO December 1, 2006

<b>Permanent Wyoming Mineral Trust Fund :</b>	<b>\$3,064,831,122</b>
<i>Funded with constitutional and statutory mineral severance tax revenues, and occasional direct legislative appropriations. Income from the PWMTF goes to the state general fund. Up to 55 percent of the PWMTF may be invested in equities; the FY 07 target is 52 percent.</i>	
<b>Permanent Land Funds</b>	<b>1,423,594,228</b>
<i>Funded with royalties, leases, fees and permits, and other revenue generated from state lands. Investment income from these funds go to state public institutions. The Common School Permanent Land Fund is the largest of the land funds at \$1.346 billion; its investment income helps to fund Wyoming's K-12 schools. Up to 55 percent of the Permanent Land Funds may be invested in equities; the FY 07 target is 52 percent.</i>	
<b>Workers Compensation Fund</b>	<b>777,790,980</b>

The transformation of Wyoming's permanent funds into a fully diversified asset allocation has been our most significant achievement. In eight years, the investment mix of the Permanent Wyoming Mineral Trust Fund and the Permanent Land Funds has been changed from 95% fixed income and cash into 50% equities and 50% fixed income.

Permanent funds are invested in each major asset class, and non-permanent funds enjoy exposure to treasuries, agencies, corporate, mortgage-backed, global, core-plus and convertible bonds, plus extended cash.

These portfolios now provide the diversity to minimize risk, the exposure to maximize returns and the stability to protect and grow the assets in a prudent, responsible manner based upon sound investment principles.

Wyoming is well positioned for a dynamic investment future.

A summary of significant accomplishments of the past eight years follows, little of which could have been achieved but for the remarkable people with whom I have had the privilege to work: Rob Albee, Betsy Anderson, Marianne Beaudoin, Pam Bechtholdt, Cindy Braden, Rose Burch, Christie Clark, Darla Conn, Andrea Driskill, Kathy Flint, Ryan Ford, Fran Frieauf, Sharon Garland, Pam

Hamilton, Susan Harris, Fran Hawkins, Keenan Hendon, Kathy Irvine, Keeya Jeffrey, Betty Krause, Sue Larson, Holly Lass, Erica Legerski, Shuyeh Liu, Ryan McGuffey, Gina Morgando, Eric Palen, Barbara Patterson, David Peterson, Teresa Poage, Alice Portz, Kathy Ramsey, Ken Rolfsness, Nancy Russell, Karla Semler, Glenn Shaffer, Emily Seidman, Shirley Trujillo, Charla Wagner, Michael Walden-Newman, Diana Walter and Lisa Ware.

The workload has been enormous and the staff fully vested with the advanced skills required to complete the task at hand.

Perhaps no State Treasurer will have as unique an opportunity as I to effect such significant change on Wyoming's investment portfolios using modern institutional portfolio theory.

I am uniquely blessed to have held this office for these eight years of unprecedented change.

## **DUTIES OF THE OFFICE**

The principal duty of the State Treasurer is to safeguard and to supervise or invest all the funds of the state, including the cash balance, the local government investment pool and the permanent funds. However, the State Treasurer has many other additional duties and currently serves on several boards and commissions as follows: 1) State Loan and Investment Board, 2) Board of Land Commissioners, 3) State Building Commission, 4) Wyoming Community Development Authority, 5) Board of Deposits, 6) State Canvassing Board, 7) Wyoming Retirement System Board of Directors, 8) On-line Government Commission and 9) Financial Advisory Council. The State Treasurer also serves as administrator of the Wyoming family college savings program.

Daily receipts from state agencies are reconciled and deposited for the agency. State warrants are redeemed from the bank each day and filed for reference. All available cash is deposited daily. A composite investment account composed of funds from the agencies, called the State Agency Pool, is invested daily with the interest going either to the general fund or to the fund that earned the interest. Interest on Permanent Land Funds goes either to an income fund or to the general fund. Permanent Mineral Trust Fund earnings are transferred annually to the general fund. The State Treasurer also has general responsibility for the management of the state's cash resources including developing information to forecast the cash needs of the state.

The State Treasurer has the duty of periodically sponsoring and holding training seminars for the benefit of local government treasurers to discuss proper and lawful investments according to Wyoming law.

The Wyoming Unclaimed Property Program is administered by the Treasurer. This involves holding unclaimed property for the rightful owners and making diligent efforts to locate those rightful owners.

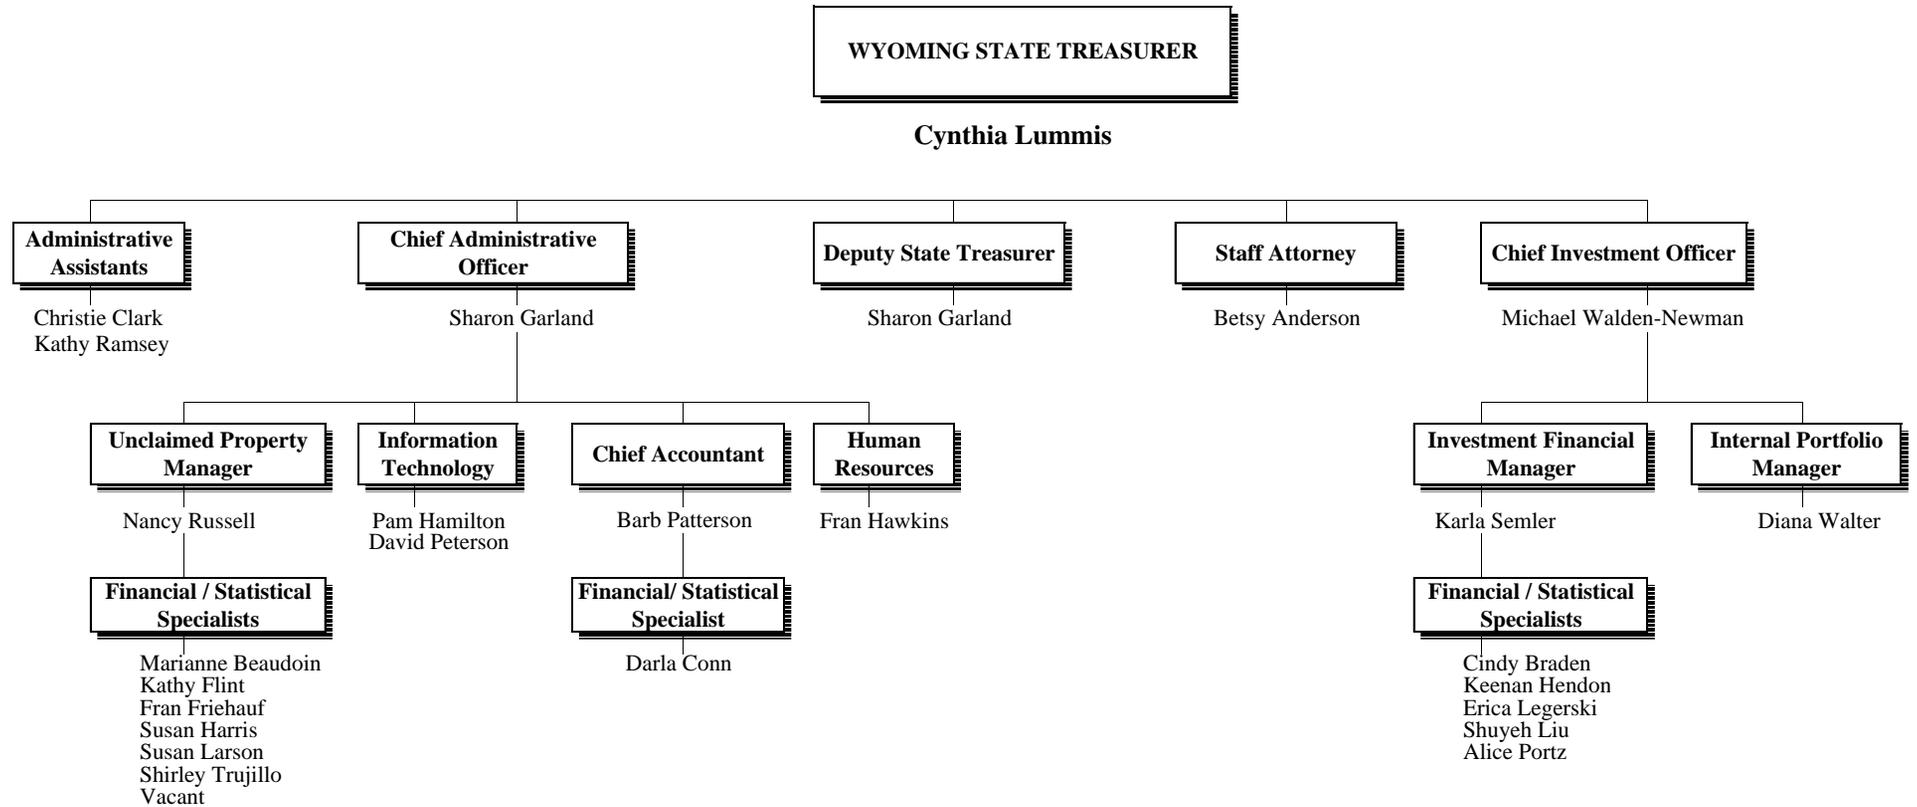

The Treasurer handles the deposit of funds in financial institutions within the state; notifies the financial institutions of quarterly rates set by the Board of Deposits, maturities, and payment of interest; and monitors collateral pledges under the provisions of the law.

The Treasurer administers the Wyoming State Treasurer's Asset Reserve (WYO-STAR) which is an investment pool for use by local government entities, school districts, counties and cities that wish to place funds with the state for short term investment.

Distributions of various state and federal monies are made as prescribed by law to cities, towns, counties, and state agencies.

The only automobile assigned to the office is S-4.

Beginning Cash: July 1, 2005 15,425,452.20

Ending Cash: June 30, 2006 \$17,879,115.51

Notes:

1 Most income to the state is entered as a receipt by the receiving agency and is then processed through the State Treasurer's Office. The exception to this process is investment income, which is entered directly to the investment system and is apportioned later to the receiving agencies. The "receipt" total above represents only non-investment income.

Fiscal Year 2006 net cash receipts increased 15.5% compared to FY05.

2 The "warrants redeemed" total represents the amount paid by the State Treasurer to redeem warrants presented for payment during the fiscal year. Warrants redeemed cannot be equated to total expenditures as warrants may be written in one fiscal year and not presented for payment until the following fiscal year. Internal transfers between agencies, funds or accounts are not included in this total.

In Fiscal Year 2006 warrants redeemed increased .9% compared to FY05.

3 "Investment income received" represents the investment income actually received by the Treasurer during the fiscal year. Distributions do not normally exactly equal earnings because some income earned and received in one fiscal year may actually be distributed in the following fiscal year. This figure excludes non-cash items, but does include all state trading profits.

## REPORT ON STATE BOARD OF DEPOSITS

The State Loan & Investment Board, consisting of the five elected officials, met on April 13, 2005 to consider the applications from Wyoming financial institutions to be designated as State Depositories under the provisions of the State Depository Law. The Board meets quarterly, in advance of each calendar quarter, to set the interest rate for the ensuing quarter. All deposits in excess of the federally insured amount of \$100,000 are protected by a pledge of securities or mortgage loans to the State Treasurer as prescribed by statute. New legislation was adopted in the 2006 legislative session which allows the state to accept Certificate of Deposit Account Registry (CDARS) in lieu of a pledge of assets. Banks must give the State 45 days notice prior to returning

The State Treasurer & the Department of Audit have determined that the parent & branches will be considered a single entity for FDIC Insurance, Time Deposit-Open Accounts (TDOA's), & other deposit programs. The parent bank will hold the depository relationship.

No Wyoming Banks were reported closed in Fiscal Year 2006.

The TDOA rate for the four quarters of fiscal year 2006 were set at 2.5%, 2.74%, 3.36% and 3.67%. Therefore, the annualized TDOA rate for fiscal year 2006 was actually 3.07%.

The Wyoming State Treasurer's Office manages a fixed income portfolio and a small international exchange traded index portfolio. The internal fixed income portfolio is traded to maximize portfolio performance while minimizing risk. Trades were to raise cash, to shift maturity, to change asset mix, to enhance yield, and to improve quality.

The Fed Funds rate increased from 3.25% in July 2005 to 5.25% in June 2006. This dramatic increase created a very challenging environment for fixed income investments. The State's internal bond portfolio held up very well in this environment, returning 1.09% versus a negative 0.81% return for the Lehman Aggregate.

The state also holds a small portfolio of Exchange Traded Funds for internal exposure through an index fund. In December 2005 the SLIB agreed to let a class of University of Wyoming students act as an advisor the State Treasurer's Office to suggest up to \$500,000 in domestic stock purchases. The Treasurer's Office made its first purchases under the UW Student Portfolio Management Program in March 2006.

Wyoming's externally managed fixed income portfolio also enjoyed progress toward diversification during the 2006 fiscal year. Wyoming's bond portfolio is primarily managed in house in a portfolio of US Treasuries and Government Agencies.

In February 2006, the State Loan and Investment Board (SLIB) expanded external management of Wyoming's fixed income portfolio to reduce risk from over concentration in fixed income strategies and to enhance return. Partnering with the research staffs of external fixed income managers will also enhance management of the internal bond portfolio.

Lehman Brothers was hired to replace West AM. Lehman joins Western Asset Management (WAMCO) and newly-hired Pacific Investment Management (PIMCO) in managing core-plus fixed income portfolios designed to allow managers to move opportunistically among types of bonds to enhance return. The SLIB hired PIMCO and JP Morgan to manage mortgage backed securities portfolios. Western Asset Management and Delaware Investments were hired to manage corporate bond portfolios. PIMCO was hired to manage a global bond portfolio hedged against currency risk to maintain its primary importance as a diversification tool in the State's overall portfolio.

Wyoming's portfolio continued its progress toward diversification during the 2006 fiscal year. The State Loan and Investment Board in August 2005 added real estate to Wyoming's permanent funds portfolio mix. ING and UBS, TA Realty and Heitman were selected as managers for this asset class. The State's continued diversification into equity securities and other alternatives contributed significantly to returns for the fiscal year.

Collectively, the State's investment managers executed well on their assigned mandates and added additional incremental return. The domestic equity portfolio's total return was 10.0% for the year, compared to 8.6% for the S&P 500. The international equity portfolio returned 28.8% for the year, compared to 27.1% for the MSCI EAFE. The first real estate capital calls occurred in late 2005; however real estate was the best performing asset in the most recent quarter with a positive 4.9% return, compared to 4.0% for the NCREIF Property Index. The domestic equity overlay strategy added 0.76% of total incremental return for the year on the notional principal amount of \$500 million.

The State Treasurer retained an external cash manager several years ago to efficiently manage the cash portion of the investment assets. The external manager produces a return that is measured against a benchmark established by the State Loan and Investment Board with the advice of the Board's consultant. This portfolio is managed daily and fluctuates several times each day as cash activities occur.

The state's cash pool's 4.34% total return for the 2006 fiscal year beat the 90-day US Treasury bill benchmark of 3.98%. The use of an external manager allows internal management to concentrate on the greater portion of the State's investable funds and provides that diversification and transition of those assets is more professionally monitored. These funds are a part of the State Agency Pool. JPMorgan Asset Management is the current manager of these funds.

(1) These funds are not available for appropriation.

(2) Common School PLFund II is listed separately from the "main" fund because the investment income from the first \$5.0 million of the Express Pipeline Easement monies is to go to the Education Trust Fund, rather than to the Common School Income Fund.

Revenue from above "sales" is the principal payment from the sale of state lands and from right-of-ways granted on state lands. "Royalties" is derived from oil and mineral leases on state lands.

## LEGISLATIVELY DESIGNATED INVESTMENTS

### As of June 30, 2006

Legislatively Designated Investments are investments of state funds for a specific public purpose, other than investments in accordance with state investment policy under W.S. 9-4-709, 9-4-711 or 9-4-831, which are authorized or directed by the legislature in law. Total LDI investments of permanent funds of the state shall not exceed \$500 million. Prior to the convening of each general session of the legislature, the State Treasurer shall, after consultation with the State Loan and Investment Board, recommend to the Select Committee on Capital Financing and Investments whether any adjustment should be made in the limitation. The Treasurer closely monitors the outstanding balances of all LDIs to ensure the statutory limitation is not exceeded. Most LDIs are from the Permanent Mineral Trust Fund.

Notes: Department of Audit requested the State Treasurer to withhold \$36,200.00 from City of Sheridan distribution.  
Distribution FY06 less FY05 Over 200 Million, plus FY06 adjustments plus FY06 "over 200 million" = Total FY06 royalty money distributed.  
The "over 200 million FY 06" distribution was completed 9/06.  
Mineral Royalties are distributed quarterly to Cities & Towns & quarterly to State Agencies & monthly to the Foundation Fund.  
Foundation Distributions are based on estimated income determined by the Consensus Revenue Estimating Group (CREG).  
In September of each year, adjustments are made to reflect actual receipts.

## ENDOWMENT MATCHING PROGRAMS

### W.S. 21-16-902 through 904: University Endowment Challenge Program

The 2001 Legislature appropriated \$30 million from the General Fund to establish a matching program for donations to the University of Wyoming (UW). An additional appropriation of \$18 million was made in the 2004 legislative session. The University Foundation manages these funds as it does other permanent endowment funds and only the earnings from the investment of these funds may be expended. The earnings shall be expended exclusively for the purposes of the endowment donation.

### W.S. 21-16-1001 through 1003: University Athletics Challenge Program

During the 2004 Budget Session, \$10 million was appropriated from the General Fund to be distributed to the University Foundation to match donations to the athletic facilities program. These funds are to be expended exclusively for the cost of establishing new or renovating existing university intercollegiate athletic facilities consistent with the 2003 intercollegiate athletics plan approved by the university board of trustees.

### W.S. 21-16-1101 through 1104: Community College Endowment Challenge Program

Also during the 2004 Budget Session, \$31.5 million was appropriated from the General Fund to be distributed equally to each Wyoming community college (\$4.5 million each). The funds will be permanently invested by the college foundation on behalf of the community college. Only the earnings from the investment of these funds may be expended. The earnings will be used to benefit and promote the mission, operation or any program or activity of the respective community college, including but not limited to professorships and student scholarships.

The State Treasurer's office administers the matching monies and distributes these funds to the institutions upon their request and attestation that they have received a qualifying gift.

## **HATHAWAY & HIGHER EDUCATION PROGRAMS**

Wyoming Statute 21-16-1201, passed in 2005, authorized the creation of the Excellence in Higher Education Endowment Program and the Hathaway Student Scholarship Endowment Program.

A portion of the excess federal mineral royalties from the School Foundation fund will be transferred to the two accounts until a maximum of \$105 million dollars have been deposited in the Excellence in Higher Education Endowment Program and a maximum of \$400 million dollars have been deposited in the Hathaway Scholarship Program. It's anticipated these programs will be fully funded in fiscal year 2008.

The Excellence in Higher Education Endowment funds are transferred to the University and Community College Foundations where it's invested as other permanent endowment funds managed by the foundation. Interest earned on these investments is to be used for the recruitment and retention of faculty, establishing endowed faculty positions and to acquire instructional and resource materials, classroom equipment and other resources necessary to support the work of endowed faculty. A special appropriation was made by the 2006 Legislature (effective July 1, 2006) that will be passed on to the university and community colleges to be used as seed money for these programs.

The Hathaway Student Scholarship Endowment Program deposits are retained by the State and invested by the State Treasurer. Interest earned on these investments is to be used for scholarships for Wyoming students to attend the Wyoming community colleges and the University of Wyoming, if certain criteria set by the legislature are met by the students. The first distribution of Hathaway Scholarship money, based on requirements set by the 2006 Legislature, will be transferred to the university and community colleges in the fall of 2006. This initial distribution will be enabled by a special appropriation that was passed by the 2006 Legislature (effective July 1, 2006).

# WYO-STAR

## WYOMING STATE TREASURER'S ASSET RESERVE

In 1987 the Wyoming State Legislature authorized any county, municipality, school district or any other local government entity to participate in the WYO-STAR program (W.S. 9-1-416).

The Wyoming State Treasurer established an investment pool or common fund in which all monies are commingled for investment purposes. Each participant has an individual interest in the pool based on the ratio of that participant's cash balance as a percentage of the total cash balance of the pool. Separate accounts are maintained for each governmental entity. All investments conform to the statute covering the State Treasurer's other investments (W.S. 9-4-831).

J. P. Morgan Asset Management continues to manage the WYO-STAR portfolio. Safety of principal is always the foremost objective of the investment manager. Liquidity being the second objective, WYO-STAR continues to guarantee the return of funds on a 24-hour notice.

During FY97 WYO-STAR rules were amended to allow income to be distributed to participants on a monthly basis. Also, ACH (automated clearing house) has replaced wire transfer in returning participants' funds. Timeliness and cost savings prompted this change.

General information about the WYO-STAR program, daily rate information and forms have been made available through the Treasurer's website. Participants can now access their accounts via the internet. This service is called Internet Participant Access System (IPAS). This service has been received by participants as very beneficial.

WYO-STAR investments, conformance to state statutes, and manager performance are reviewed quarterly by the consultant R.V. Kuhns & Associates, Inc. hired by the State Loan and Investment Board. This board is made up of the five elected officials, the Governor, Secretary of State, Auditor, Treasurer and Superintendent of Public Instruction.

WYO-STAR yields realized in FY06 are as follows:

07/05	2.957%	01/06	3.926%
08/05	3.139%	02/06	3.999%
09/05	3.269%	03/06	4.035%
10/05	3.490%	04/06	4.343%
11/05	3.309%	05/06	4.488%
12/05	3.556%	06/06	4.737%

The annualized yield for FY06 was 3.77%.

As of June 30, 2006, there were 144 active participants. (Some participants have multiple accounts). WYO-STAR pool balance on June 30, 2006, was \$229,410,417.48. Participants earned \$8,932,730.34 in FY06.

# WYOMING UNIFORM UNCLAIMED PROPERTY ACT

During Fiscal Year 2006, funds totaling more than \$4.468 million were received and deposited into the trust fund to be held in perpetuity for the owners. More than \$1.390 million was returned to the rightful owners or heirs. The Unclaimed Property Division is totally self-supporting.

The Unclaimed Property Division is responsible for receiving unclaimed funds from any entity that cannot locate the owner. Approximately 6,000 packets were mailed to such entities requesting the return of Wyoming residents' funds. Upon receipt of these funds, the division attempts to locate the owners and reunite the rightful owner/heir with their property by advertising the names in one or more papers of general circulation once a year. The division is also in contact with other states to bring Wyoming residents' unclaimed funds back to Wyoming.

The division is also charged with: (1) assisting and educating unclaimed property holders of compliance; (2) informing vendors of requirements; and (3) informing claimants of their rights and responsibilities. Numerous claimants are instructed on how to claim their funds and an alphabetical list of owners is mailed quarterly to Wyoming county clerks.

The unclaimed funds listing is available for public inspection after the funds have been held for two years. This two-year period allows for the advertising of the funds and for the owner to come forth. If the owner fails to come forth within the two-year period, the names are then made public. Third-party tracers (heirfinders) are then given access to records to allow them to attempt to locate the owners. Heirfinders charge the owners a percentage of the funds as their fee.

The Unclaimed Property Division maintains the records for more than 142,000 owners and more than \$38.9 million in unclaimed funds. Since inception, the division has returned approximately \$16.6 million to owners or heirs. A large part of this is due to the annual advertisement which generates more than 1,200 telephone calls in a ten-day period.

In FY06 several major goals and accomplishments were achieved:

1. Implemented cost savings measurers, i.e., report format in lieu of copies of letters, changing report to run quarterly instead of a monthly basis.
2. Implemented automated claims process.
3. Streamlined reports and claims balancing processes.
4. Website updating with more "user friendly" appearance and access.
5. Annual advertisement - resulting in approximately 1,000 claims in first two weeks.
6. Follow-up project to remind owners who have not finalized the claim process.
7. The owner list on the Internet continued to generate numerous claims.

Unclaimed property owner information and lists were requested by 9 heirfinders located in 9 states. Written inquiries from persons seeking their possible unclaimed funds totaled 3,782, received from 42 states, the Internet and several foreign countries. Internet inquiries on the Wyoming Unclaimed Property Website totaled 514,390.

NOTES:

\*Up to March 11, 1993, unclaimed funds remitted to the state were held for a five-year period. If the funds were not claimed within that time, they escheated to the Common School Permanent Land Fund.

On March 11, 1993, Governor Sullivan signed the Wyoming Uniform Unclaimed Property Act into law. Under the new law, unclaimed property is no longer transferred to the Permanent School Land Fund. This law provides for unclaimed funds to be held in perpetuity for the rightful owners or their heirs.

## CAPITAL FACILITIES REVENUE BONDS

Wyoming Statute 9-4-605 authorized up to \$105 million in revenue bonds for capital construction purposes. Funds for the principal & interest on these bonds is restricted to the federal mineral royalties distributed to the school foundation program or to the highway construction funds.

### Prior Year Defeasance of Debt:

In prior years, the state of Wyoming defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets & liability for the defeased bonds are not included in this financial statement. As of June 30, 2006, only \$1.4 million of the defeased 1991 issue remained outstanding.

### New Issues:

No new bonds were issued in fiscal year 2006.

## **SCHOOL DISTRICT BOND GUARANTEE PROGRAM**

Wyoming Statute 9-4-1001 authorizes the State Loan & Investment Board to guarantee school district general obligation bonds issued under W.S. 21-13-701 through 21-13-721. However, the 2002 Legislature closed the state guarantee for future issues, except for the refunding of bonds issued on or before November 1, 2001.

The State Treasurer is authorized to pledge up to \$300 million from the Common School Permanent Land Fund to guarantee the school district bonds. If a district fails to deposit sufficient debt service monies with the State Treasurer, funds will be advanced from the Common School Permanent Land Fund. Repayment to the Common School Permanent Land Fund will be made from the district's next payments from the School Capital Construction Account and the School Foundation Fund.

As of June 30, 2006, the State Loan & Investment Board had approved guaranteeing school district bond issues with original amounts totaling \$159,964,000. Of these, 10 issues have now been called or paid off completely and \$50.1 million is still outstanding.

## **LOCAL GOVERNMENT BOND GUARANTEE PROGRAM**

Wyoming Statute 9-4-1002 authorizes the State Loan & Investment Board to guarantee local government general obligation bonds issued under W.S. 15-7-101 through 15-7-114 or 18-4-301. The program is intended to benefit local governments by guaranteeing payment of bonded indebtedness of creditworthy cities, towns and counties by reducing the interest rate at which the bonds may be issued.

The State Treasurer is authorized to pledge up to \$100 million from the Permanent Mineral Trust Fund to guarantee the local government bonds. If a government fails to deposit sufficient debt service monies with the State Treasurer, funds will be advanced from the Permanent Mineral Trust Fund to make the required payments. Repayment to the Permanent Mineral Trust Fund will be made from the government's next payments of federal mineral royalties and severance tax.

As of June 30, 2006, the State Loan & Investment Board had not approved any local government bond issues for the guarantee program.

# WYOMING FAMILY COLLEGE SAVINGS PROGRAM

The Wyoming Family College Savings Program was established by Chapter 71 of the 2000 Legislative Session pursuant to Section 529 of the Internal Revenue Code (State Statute 21-16-809 through 21-16-818). The legislation also established the Wyoming Family College Savings Program Trust (the "Trust") as an instrumentality of the state and named the state treasurer as the sole trustee of the Trust, with assets of the Trust held in trust for account owners and beneficiaries. The state treasurer served as the administrator of the 529 college savings program, which encourages citizens to save for higher education costs for their families while receiving favorable income tax treatment for earnings on monies set aside.

Following passage of the 2000 legislation, the State Treasurer entered into a nine-year management agreement with Fund Asset Management, a subsidiary of Merrill Lynch, to provide program management services. The Wyoming college savings plan was marketed by Mercury Funds as the 529 College Achievement Plan (CAP) and distributed primarily by AG Edwards.

Legislation was passed during the 2006 legislative session (Senate File 0062, Chapter 46) which now allows, but does not require, the state treasurer to have a 529 college savings program. Due to various market factors, including Wyoming's small population base and the competitive nature of 529 programs (all 50 states have at least one program); Wyoming's plan was not able to grow the asset base originally anticipated. Both Merrill Lynch and the State Treasurer wished to terminate their agreement. At the end of FY 06, Wyoming had 1,286 total participants (165 are Wyoming participants) and \$12,957 million in total assets (\$1,502,658 Wyoming resident assets) in the CAP plan.

The CAP plan with Merrill Lynch will close to new investors on July 10, 2006, and terminate completely on September 18, 2006. In early July, Wyoming will be partnering with the State of Colorado to offer 529 college savings plans. Under the new structure, Wyoming residents will be able to invest in any 529 plan offered by CollegeInvest, a not-for-profit division of the Colorado Department of Higher Education, and enjoy the same preferred fee structure as Colorado residents. This marks the first time that a state has partnered with another state to offer 529 college savings plans.

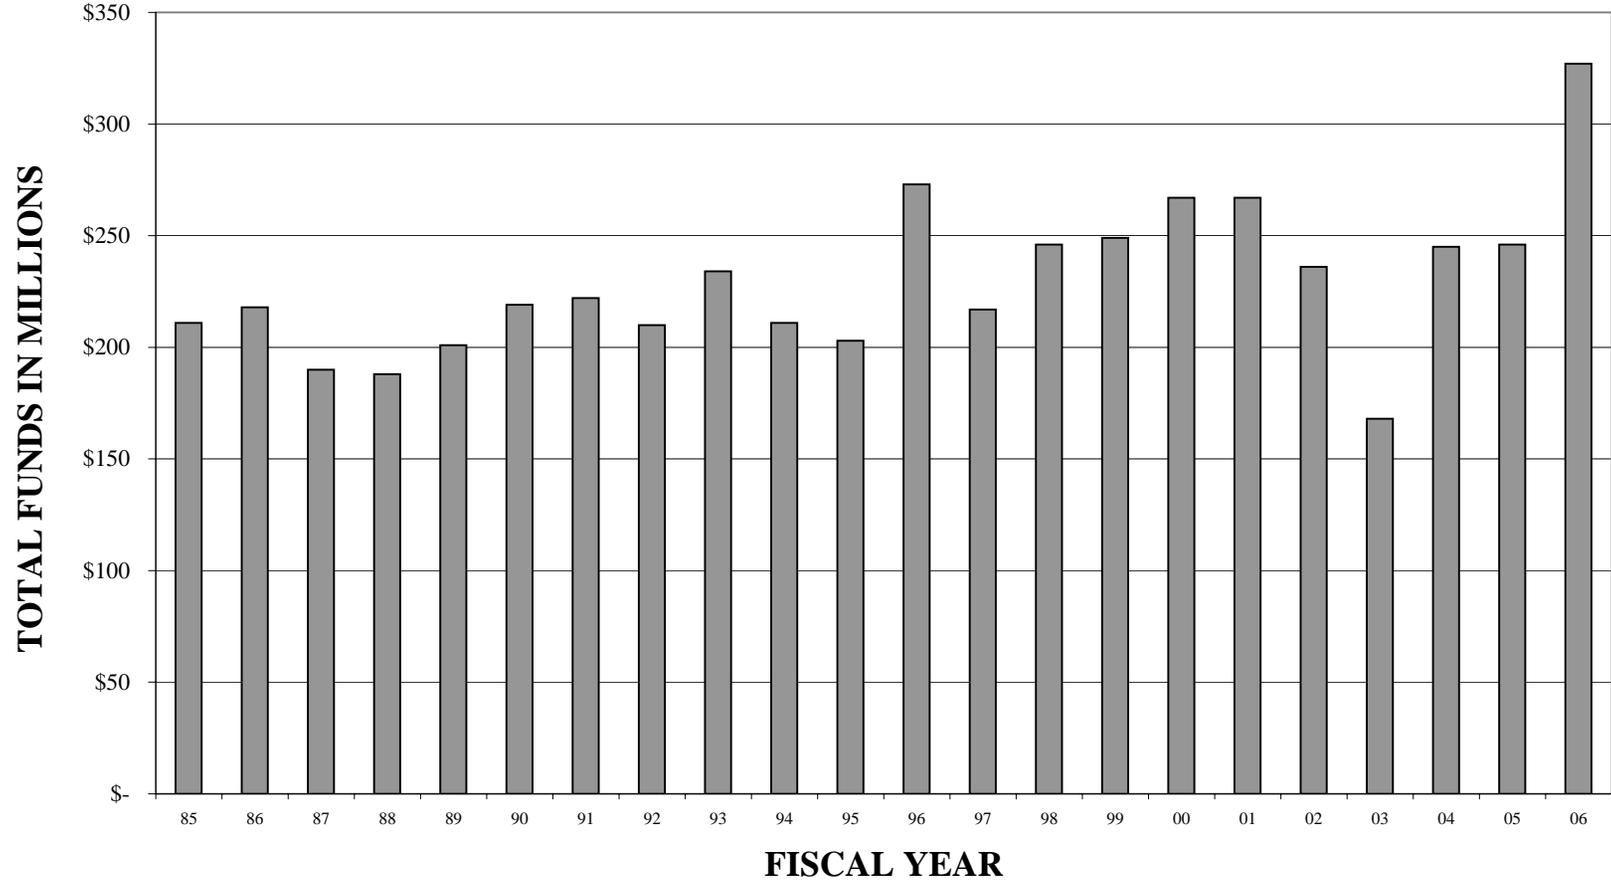

The 2006 change in legislation allowed the State Treasurer to negotiate termination of the CAP plan with Merrill Lynch and enter into a marketing agreement with the State of Colorado's college savings program (CollegeInvest).

Money saved through 529 plans can be used nationwide at any eligible educational institution, including public or private colleges, universities, vocational schools and even some foreign universities. And 529 money can be used to pay for qualified higher education expenses such as tuition, fees, certain room and board, and required supplies.
