

WYOMING STATE TREASURER

# ANNUAL REPORT

(07/01/2019 - 06/30/2020)

---

CURTIS E. MEIER, JR.  
WYOMING STATE TREASURER

WYOMING STATE  
TREASURER'S OFFICE

DAWN A. WILLIAMS  
DEPUTY STATE TREASURER

## MESSAGE FROM TREASURER CURT MEIER

In this, my second annual report, I will outline for you what we have accomplished in my first two years in office and share my vision for the Wyoming State Treasurer's Office for the next year.

The worldwide COVID-19 pandemic at the start of 2020 had large impacts to the financial markets, as well as the overall world economy. These impacts reached every sector and every market. The Treasurer's Office investments, like all others, were negatively impacted, but we were able to minimize our losses and take advantage of some new opportunities, which should pay off in the long run. Overall, across funds, the total portfolio returned 2.9% for Fiscal Year 2020 (FY20) in spite of COVID-19 impacts.

The Unclaimed Property Division had a busy year in FY20 as the number of claims processed to citizens and former citizens of Wyoming was 32 percent more than the previous record year. In all, 8,062 checks totaling more than \$5.125 million were issued. The Unclaimed Property team began outreach visits across the state in the summer of 2019, making it possible for residents to make local in-person visits with Unclaimed Property specialists and help simplify the claims process. We hope to restart this service to the citizens of Wyoming as soon as it is safe to resume in-person contact.

As the Treasurer, I have made it one of my primary goals since taking office to implement automated processes for the Investment Division and Financial Accounting Division. We began these efforts in FY19, and we are realizing the fruits of that labor. The office has added some additional expertise and has refined systems and automation to bring our systems up to modern standards. This will promote accuracy and reliable reporting, which will ensure the success of these divisions and our office.

Along with the revamping and modernization of a number of our systems, the office has begun the process of hiring a consultant to perform an operational review. This review is designed to have a third party evaluate our accounting and financial processes to look for any efficiencies that may be possible.

The Office has had extensive communication regarding the state's investment policies with the Investment Funds Committee, as well as the legislative Select Committee on Capital Financing and Investments, since the Treasurer's Annual Conference. The conference resulted in a consensus to look at providing flexibility to the Investment Division to increase the potential rate of return, similar to other sovereign wealth and endowment programs such as New Mexico, Utah and Idaho.

These states have large reserve funds for downturns allowing for more investment flexibility, which Wyoming does not. A zero percent interest rate environment has made it apparent that we need to change the state's diversified investment portfolio substantially. This may result in a constitutional amendment, but this process is extensive and will take several years to complete. I will keep you informed and welcome any input you may have regarding this issue.

Sincerely,

A handwritten signature in black ink, appearing to read "Curtis E. Meier, Jr.", written in a cursive style.

Curt Meier  
State Treasurer

## CIO ANNUAL LETTER

### INVESTING DURING UNCERTAIN TIMES

Currently, the markets are facing many challenges. As a result, we are confronted with very high volatility, expensive stock and bond markets, all while the global economic situation is coming off its weakest period since WWII. What is an investor to do in light of these hurdles? As I write this letter we are in the midst of the World Series, so I thought a baseball analogy would be apropos.

Warren Buffet stated, “We try to exert a Ted Williams kind of discipline. In his book, *The Science of Hitting*, Ted explains that he carved the strike zone into 77 cells, each the size of a baseball. Swinging only at balls in his ‘best’ cell, he knew, would allow him to bat .400; reaching for balls in his ‘worst’ spot, the low outside corner of the strike zone, would reduce him to .230. In other words, waiting for the fat pitch would mean a trip to the Hall of Fame; swinging indiscriminately would mean a ticket to the minors. The trick in investing is just to sit there and watch pitch after pitch go by and wait for the one right in your sweet spot.”

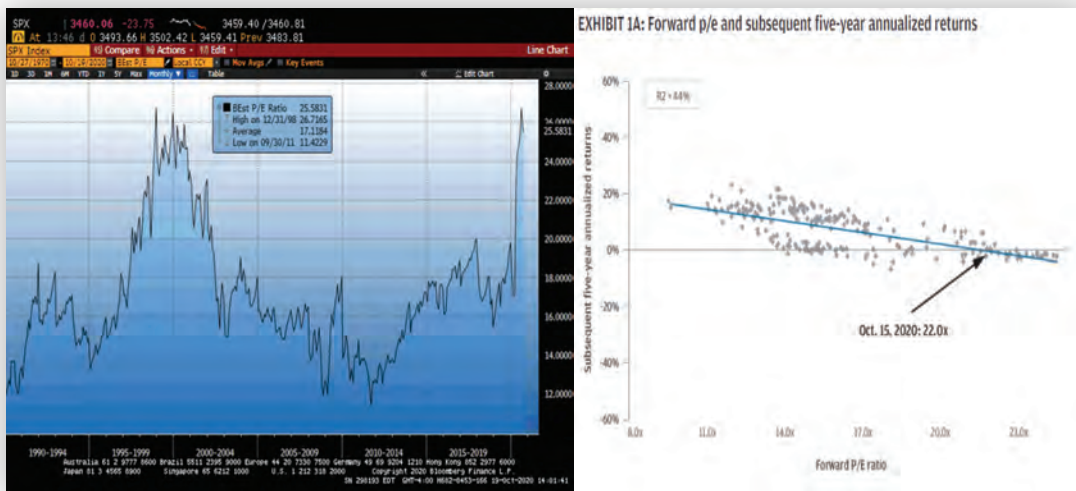

When investing, you are faced with many different periods, similar to Ted Williams' “cells.” In some periods, asset classes are very cheap and there are few known uncertainties. Other times the opposite is true. How is one to know when markets are friendly and an investor has many fat pitches to swing at? When should you wait until you see one in the “best cell”? We do not forecast the market, rather we use historical and quantitative analysis to look at probabilities and possible asset returns and outcomes.

When the market is discounting a certain outcome at a vastly different probability than what our models show, we want to invest in that asset. I would argue that many investments would be the equivalent of “reaching for balls.” The reason for this is the many uncertainties we face. For instance:

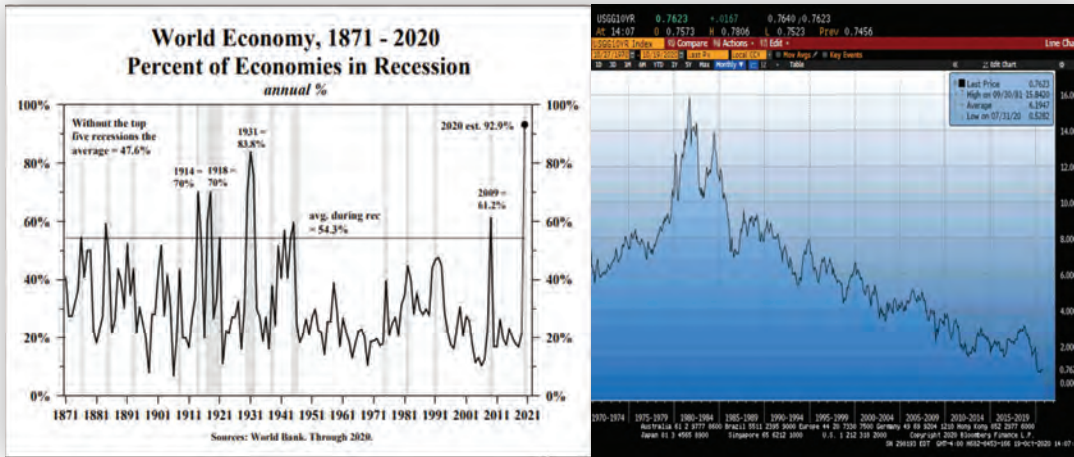

- **US Election.** Who will control the White House and the Senate? The Republican and Democratic agendas are vastly different with significant implications for many asset classes.
- **Covid 19 vaccine.** When will we have a vaccine and herd immunity? We believe it will be very difficult to get the economy back to the pre-Covid level until this is accomplished.
- **Trade.** Global trade has been disrupted and the future path of the trade conflicts are uncertain.
- **High P/E ratios.** Over the past 50 years, the current P/E ratio of 26 times trailing 12-month earnings is in the 95th percentile of historical expensive valuations. The recent rally has caused valuation metrics to become very expensive. At current valuations, the historical five-year return on equities is approximately zero.

- **Low yields.** US Treasury 10-year yields are at .80%. This is in the 99th percentile of richness over the past 50 years. Globally, the world's economies have contracted. This has caused 10 year Treasuries to trade at all-time lows as the Federal Reserve and other central banks lower interest rates to zero or below.

Low yields globally are making it difficult for pensions, endowments and state and local government funds to meet their spending requirements. This issue is exacerbated in many states like Wyoming that rely on natural resources and tourism to fund their budgets. This has caused debt levels to increase dramatically across the globe.

- **Debt.** To combat the weakness, the US debt levels have increased dramatically to 115% of GDP. Debt levels are estimated to continue to grow and move over 200% of GDP in the coming decades. A level above 70% is problematic and historically has caused lower growth, weaker currencies, higher yields, larger debt service payments and other issues for our economy.

So where are we in the investment spectrum? Interest rates have rallied over the past year. The Bloomberg Barclay Aggregate (AGG), the benchmark for core bond funds, has a yield to worst of 1.2%. Equity P/E ratios are more expansive than last year. Using historical and quantitative models like the one above, many point to equity returns in the -3 to +3 percent range over the next 10 years. Using the above forecasts, the 10-year returns would be calculated as follows.

- 60% stocks (using the upper end of the forecast) at 3% = 1.8%.
- 40% bonds at 1.2% = .5%.
- Inflation for the next 10 years is priced at 1.7%.

Therefore, stocks at 1.8% plus bonds at .5% equals 2.3%. Subtract inflation at 1.7% equals a .6% real rate of return.

Even if we doubled the equity forecast to six percent we would still be about 2.5%. This is 50% lower than the 50 year average of a 5% REAL rate of return.

Attaining a return similar to the last decade would be mathematically and historically unprecedented due to the fact that the two largest asset classes are very expensive and economic growth and debt levels are problematic. Also, the lower risk-adjusted returns can be seen in the 10-year forward Sharpe ratios. The Sharpe ratios are the most common way to measure the risk-adjusted return. They continue to remain significantly lower than the last ten year Sharpe ratios.

This confluence of issues leads me back to Warren Buffet and the great Ted Williams. In this environment when volatility is high, markets are expensive and there are considerable uncertainties, the fat pitch is hard to find. There is a reason that Berkshire Hathaway is holding the highest amount of cash as a percentage of assets since March of 2005. There are opportunities in the market, but a great risk-adjusted return investment is difficult to find. In this environment, while we are waiting for these uncertainties to be resolved over the next few months, we are focusing on where we can improve returns without taking on large amounts of risk.

We know statistically that the 60/40 portfolio will be hard-pressed to achieve the past 10 years' performance. This means we will need to focus on more of the non-traditional asset classes with both our internal and external funds. A few examples would be international stocks, emerging market debt, MLPs, preferred stocks and first-lien bank loans. These securities offer a higher yield than other similar rated securities with lower volatility. Also, we have moved our asset allocations to match the levels directed by the State Loan and Investment Board (SLIB) while hiring new managers that have historically outperformed the market during periods of stress.

We continue to work with the SLIB, our investment funds committee and the legislative select committee on capital financing and investments to potentially explore ways that could improve our reserve accounts' liquidity. This would allow us to invest in strategies that are less liquid but have a significantly higher return while maintaining similar credit quality. This is truly a team approach.

As for performance, our total assets for the fund were \$22.7 billion on June 30, 2020 vs. \$21.4 billion on June 30, 2019. The total fund returned 2.9% in 2020 vs. a 5.4% return in 2019. We outperformed our benchmark by 0.35% over the year. This equates to approximately \$80 million additional dollars to the state vs. the benchmark.

Looking forward over the next few quarters, uncertainties will be better known as the elections will be over and the timing of a vaccine will be better understood. Volatility should decline. This will result in a narrower probability of outcomes and allow us to invest in assets with a higher risk-adjusted return. Or stated another way, hopefully, we will see more fat pitches!

Patrick Fleming  
CIO

## WYOMING STATE INVESTMENT PORTFOLIO

### June 30th, 2020

The State Treasurer's Office manages \$22.7 billion in non-pension investable funds. Nine funds: the Permanent Wyoming Mineral Trust Fund, the Permanent Land Funds, the Hathaway Scholarship Endowment Fund, the Excellence in Higher Education Endowment Fund, the Worker's Compensation Fund, Pool A and the Legislative Stabilization Reserve Account (LSRA) may hold equities under current law. The State Agency Pool (SAP) cannot.

	<u>Cost Basis</u>	<u>Market Value</u>	<u>MV as a Percent of Total MV</u>
<b>Permanent Wyoming Mineral Trust Fund</b>	<b>7,561,927,587</b>	<b>\$7,990,840,637</b>	<b>35.1%</b>
<i>Funded with constitutional and intermittent statutory mineral severance tax revenues, and occasional direct legislative appropriations. Income from the PWMTF goes to the state general fund. Up to 70 percent of the PWMTF may be invested in equities.</i>			
<b>Permanent Land Funds</b>	<b>4,155,539,734</b>	<b>4,355,356,466</b>	<b>19.2%</b>
<i>Funded with royalties, leases, fees and permits, and other revenue generated from state lands. Investment income from these funds go to state public institutions. The Common School Permanent Land Fund is the largest of the land funds: \$3.94 billion book/cost, \$4.13 billion market; its investment income helps to fund Wyoming's K-12 schools. Up to 70 percent of the Permanent Land Funds may be invested in equities.</i>			
<b>Hathaway Scholarship Endowment Fund</b>	<b>565,509,009</b>	<b>592,207,481</b>	<b>2.6%</b>
<i>Funded with federal mineral royalties. Investment income is used to pay higher education tuition for qualifying Wyoming high school graduates at the University of Wyoming and Wyoming's community colleges. Up to 70 percent of the Hathaway Scholarship Fund may be invested in equities.</i>			
<b>Excellence in Higher Education Endowment Fund</b>	<b>115,001,178</b>	<b>119,473,593</b>	<b>0.5%</b>
<i>Funded with federal mineral royalties. Investment income is used to pay for recruitment and retention of faculty, to establish endowed faculty positions and to support the work of endowed faculty at the University of Wyoming and Wyoming's community colleges. Up to 70 percent of the Higher Ed. Endowment Fund may be invested in equities.</i>			
<b>Workers Compensation Fund</b>	<b>2,257,370,638</b>	<b>2,435,781,852</b>	<b>10.7%</b>
<i>Funded with employer premiums. Investment income is used to assist in the payment of Workers Compensation costs including administrative and indemnity costs, and vendor payments. Up to 45 percent of the Workers Compensation Fund may be invested in equities.</i>			
<b>LSRA</b>	<b>1,561,464,389</b>	<b>1,551,541,121</b>	<b>6.8%</b>
<i>LSRA is funded by the legislative stabilization reserve account.</i>			
<b>Pool A</b>	<b>245,461,429</b>	<b>241,213,611</b>	<b>1.1%</b>
<i>Pool A is an aggregation of trusts and funds for Culture, Wildlife Trust, Game and Fish, Wyoming Public Television and the Tobacco Settlement Fund.</i>			
<b>State Agency Pool</b>	<b><u>5,339,977,967</u></b>	<b><u>5,454,618,189</u></b>	<b><u>24.0%</u></b>
<i>Monies from all other state funds pooled for investment. Income is distributed back to a specific state agency or to the state general fund. *Includes \$1.25BN in COVID-19 relief funds.</i>			
<b>GRAND TOTAL ALL FUNDS</b>	<b>\$21,802,251,932</b>	<b>\$22,741,032,950</b>	<b>100.0%</b>

NOTES:

(1) These funds are not available for appropriation.

(2) In Fiscal Year 2009 Common School Permanent Land Fund II was added to the Common School Pool along with the Common School Permanent Land Fund. Income is diverted to the Education Trust Fund per Special Session Laws 1997, Chapter 3, Section 504.

## RVK'S ANNUAL REVIEW

*(RVK serves as the investment consultant for the  
Wyoming State Loan and Investment Board)*

Outlined below please find a summary of significant observations regarding performance of the State's Funds for the period ended June 30, 2020. We hope this summary will facilitate your review of our Investment Performance Analysis Report.

The Total Fund returned 7.5% net of fees during the second quarter as risk assets produced positive returns. Long-term performance for the Total Fund remains strong, with the State earning returns of 4.5% and 5.1% per annum over the trailing seven- and ten-year periods.

Absolute results were positive for all of the State's investment pools, with each pool keeping pace with, or modestly underperforming, their respective benchmarks during the quarter. The State's non-permanent funds with larger strategic allocations to fixed income investments generated lower returns on an absolute basis, but similar returns on a relative basis, compared to the State's permanent funds.

The Bloomberg US Aggregate Bond Index increased by 2.9% in the quarter, driven by recovery in credit spreads. Diversification away from core US bonds had mixed results as bank loans, EMD, and long duration outperformed the broad market, while low duration underperformed. The State's core fixed income managers slightly outperformed the broad market index, collectively returning 3.4%. Emerging markets debt outperformed its respective benchmark, while long duration, low duration, and bank loans modestly underperformed their respective benchmarks during the quarter. US equity markets had a strong recovery across all market capitalizations and styles during the second quarter.

Major US equity indices finished the quarter in positive territory, with the Russell 3000 Index returning 22.0% for the quarter. The State's All Cap and Small Cap US equity composites had positive returns during the second quarter, keeping pace with or modestly underperforming their respective indices.

---

Developed international markets underperformed emerging markets during the quarter, with the MSCI EAFE Index returning 14.9% and the MSCI Emerging Markets Index returning 18.1%.

The State's international equity composite returned 18.1% during the quarter, outperforming the MSCI ACW Ex US Index by 2.0%. Passively managed strategies within the State's international equity portfolio kept pace with their respective benchmarks, while Arrowstreet outperformed its respective benchmark by 4.1%. Harding Loevner also had strong outperformance of 1.9%.

Mixed assets, including preferred stock and MLPs, generated positive absolute returns during the quarter. Cohen & Steers returned 11.4% in the quarter and outperformed its benchmark by 0.6%. MLPs had very strong performance as Harvest Active and Harvest Passive returned 32.7% and 39.1%, respectively, but underperformed the index.

Core real estate generated a negative return during the quarter, with capital depreciation outpacing income. The State's core real estate composite earned -2.1% in the second quarter, underperforming the NCREIF ODCE Index. Clarion earned -2.0%, while UBS returned -2.6%.

Diversified hedge funds returned 4.9% during the quarter, underperforming the HFRI FOF Composite Index by 3.0%. Grosvenor Diversified Hedge Funds and Internal Diversified Hedge Funds returned 7.0% and 3.8%, respectively.

### **Fiscal Year Ended June 30, 2020**

In a year marked by mixed performance for risk assets but strong performance for core fixed income, most of the State's investment pools earned positive absolute returns ranging from 1.3% to 9.0%. A majority of the investment pools outperformed their respective benchmarks during the year. Relative returns were supported by the State's Fixed Income portfolio, which outperformed the Bloomberg US Agg Bond Index amidst a strong return environment for the broad US bond market. The Federal Reserve adopted very accommodative policy and lowered rates significantly over the course of the year, causing strong returns for the core and long duration portfolios. Public equities and alternatives contributed to mixed absolute results for the permanent funds as the fiscal year saw a wide dispersion of performance among

---

risk assets. Large-cap domestic equities greatly outperformed small-cap, MLPs and international equities during the fiscal year marked by global health concerns, economic shutdowns, aggressive monetary and fiscal policy, and continued political divisiveness. Although the re-opening of economies led to stronger economic data and supported a market recovery toward the end of the fiscal year, it is possible that these risks could have a larger influence on markets going forward.

- The Permanent Mineral Trust and Common School Permanent Land Fund ended the fiscal year with returns of 2.1% and 2.2%, respectively. The Permanent Land Fund and University Permanent Land Fund ended the fiscal year with returns of 2.4% and 1.3%, respectively. Of these four Permanent Funds, PMTF, CSPLF, and PLF outperformed their respective custom benchmarks. Hathaway Scholarship Endowment and Higher Education Endowment returned 2.1% and 1.4%, respectively. Both outperformed their custom benchmarks. The Workers Compensation Fund returned 9.0%, outperforming its custom benchmark by 1.0%.

- Absolute performance for the Non-Permanent Funds (Pool A, LSRA and State Agency Pool) was similar to that of the Permanent Funds, and the Non-Permanent Funds had similar returns relative to their custom benchmarks. Pool A returned 4.0% versus 3.3% for its custom benchmark, LSRA returned 1.5% versus 1.4% for its custom benchmark, and the State Agency Pool returned 3.8% versus 3.5% for its custom benchmark.

Fixed income markets experienced strong returns as interest rates declined during the year.

- Core Fixed Income: The Core Fixed Income Portfolio produced a positive fiscal year return of 9.3% compared to the Bloomberg US Aggregate Bond Index return of 8.7%.

- Non-Core Fixed Income: Diversification away from core US bonds had mixed results as long duration outperformed the broad market, while bank loans, EMD, and low duration underperformed. Non-US fixed income exposures had a mixed impact to relative and absolute returns within the fixed income portfolio. Opportunistic European credit earned -8.8% over the trailing one-year period, while emerging market debt returned -2.6%.

---

Consistent with global markets, the State's equity and alternative investment managers produced mixed absolute results and relative results, as shown below:

- The All Cap US equity portfolio returned 6.2% compared to 6.9% for the All Cap Custom Index.
- The Small Cap US equity portfolio returned -7.6% compared to -6.6% for the Russell 2000 Index.
- The international equity portfolio returned -1.2% compared to -4.8% for the MSCI ACW Ex US Index.
- The core real estate portfolio returned 1.4%, compared to 1.3% for the NCREIF ODCE Index.
- The diversified hedge funds portfolio returned -1.2%, compared to 0.4% for the HFRI FOF Comp Index.
- The MLP portfolio returned -36.0%, compared to -38.4% for the MLP Custom Index.

## POOL ALLOCATION

The June 30, 2020 allocation mix of the portfolio is shown below; charts later in this report provide a detailed allocation for each pool.

	<u>Equities</u>	<u>Fixed</u>	<u>PPIs*</u>	<u>Cash</u>

The International Equity Custom Index consists of the MSCI EAFE Index (USD) (Gross) through July 2010 and the MSCI ACW Ex US Index (USD) (Net) thereafter.

The MLP Custom Index consists of the S&P MLP Index (TR) through 06/30/2019, the Alerian MLP Index through 12/31/2019, and 50% Alerian MLP Index / 50% Alerian Midstream Energy Index thereafter.

The EMD Custom Index consists of the JPM GBI-EM Gbl Dv'd Index through 02/29/2020 and 70% JPM GBI-EM Gbl Dv'd Index / 30% JPM CEMBI Brd Dv'd Index thereafter.

The JP Morgan Cash Custom Index is calculated monthly using beginning of the month investment weights applied to each corresponding primary benchmark return.

The primary benchmark for JP Morgan Cash is the ICE BofAML 3 Mo US T-Bill Index and for JP Morgan Extd is the JP Morgan Blended Index through 06/30/2019, and the ICE BofAML 3 Mo US T-Bill Index thereafter.

The Cambridge US Private Equity Index is shown for informational purposes only. Due to availability of data, current quarter performance assumes a 0.00% return.

Calculations are based on a quarterly periodicity.

Note 1 Returns are stated in traditional total return terms and do not specify realized income.

Note 2 State Street All Cap Custom Index consists of 69% R 3000, 24% FTSE RAFI US 1000, 7% MSCI USA Minimum Volatility through 2/27/2020, account performance on 2/28/2020, and S&P 500 thereafter.

Note 3 Market values for non-core real estate and private equity are as of the final valuation. Investment (Cost) Values are not lagged.

Note 4 Performance for Private Equity and Value-Added Real Estate investments is calculated on an IRR basis. For further analysis, please refer to the supplementary alternatives report.

Note 5 Market values for M&G are converted from British Pounds using the noon New York City Federal exchange rate. Cost values are converted using the 5pm London WM Benchmark rate.

Note 6 The Arrowstreet mandate was converted from global equity to international equity on March 1, 2018.

Note 1 Performance shown is net of fees.

Note 2 Returns are stated in traditional total return terms and do not specify realized income.

Note 3 Internal Intermediate Gov't Fixed Income Portfolio performance excludes distressed securities taken in from dismissed managers (market value includes distressed securities).

Note 4 Internal Intermediate Gov't Fixed Income Portfolio Index consists of the BB US Treasury Index. Nov 2019 consists of the Internal Intermediate Gov't Fixed Income Portfolio. Prior to Nov 2019 consists of Bloomberg US Gov't: Int. Term Bond Index; prior to December 2009 the index consisted of the Bloomberg US Gov't/Credit Bond Index.

Note 5 Market values shown for Public Purpose Investments reflect cost value of the investments.

Note 6 The PIMCO Custom Index consists of the Bloomberg US Agg Bond Index through February 2018 and the Bloomberg US Agg Int Index through June 2019, Bloomberg US Agg Bond Index through 3/26/2020, account performance from 3/27/2020 through 4/3/2020, and the BB US Agg Index thereafter.

Note 7 The Arrowstreet mandate was converted from global equity to international equity on March 1, 2018.

Allianz refunded prior excess fee charges during August 2019. The August 2019 fee refund appears as negative fees.

State Street Small Cap negative fees are due to lending income.

Fees are based on actual quarterly fees paid and were provided by Investment Managers and records of the Treasurer's Office.

Mgmt fees are fees charged for the costs of running the investment. These include both fees paid via explicit invoice and fees paid directly out of the investment itself.

Fund of fund management fees shown include management fees for the fund of fund and underlying fund levels.

Incentive fees are fees that are dependent on the manager's performance over a given period. These fees are typically paid from a portion of investment profits.

## NOTES:

- The State Treasurer amended and restated the Treasurer's Interpretative Policy effective July 1, 2018. For State Permanent Funds, if capital gains and losses are net positive, the Treasurer distributes the net capital gain as income. If capital losses exceed capital gains at year end, the losses are carried forward through the next fiscal year. For State Non-Permanent Funds, capital gains and losses are recognized as income for the year.

# Securities Lending Program

The Wyoming Master Investment Policy Statement, adopted by the State Loan and Investment Board, permits the use of a securities lending program with a custodial bank or an independent securities lending agent. The Wyoming State Treasurer's Office (WSTO) employs its custodial bank, J.P. Morgan, as the securities lending agent.

Securities lending is an investment management activity that mirrors the fundamentals of a loan transaction. Securities are lent to broker-dealers acting on behalf of a client. In exchange, the custodian receives cash and/or securities as collateral and invests the collateral with the goal of earning a higher yield than the interest rate paid to the borrower. Securities on loan must be collateralized at 102%. WSTO only accepts cash, U.S. Treasuries and U.S. Agency securities as collateral. The collateral is marked-to-market daily. In times of market stress, the collateral held by the WSTO will appreciate relative to the securities on loan protecting the WSTO from market downturns and counterparty risk. Earnings generated above and beyond the interest paid to the borrower represent the net income to WSTO from the transaction. In addition, J.P. Morgan provides the WSTO full indemnification against loss if the borrower fails to return the securities. All domestic and international borrowers are secure, high quality counterparties. The first objective of the investment portfolio is to safeguard principal.

A minimum of 15% of the portfolio must be invested in overnight securities and a 60 day weighted average portfolio maturity ensures significant liquidity. WSTO has the right to terminate any loan in whole or in part by providing the custodial bank with written notice.

## INTERFUND LOANS

### School Foundation Program

Interfund loans from the Legislative Stabilization Reserve Account (LSRA) pursuant to W.S. 21-13-316 are made to the Department of Education to fund temporary cashflow shortfalls in the School Foundation Program Fund. If the LSRA balance is not sufficient to make the loans, then they will be made from the corpus of Common School Permanent Land Fund (CSPLF). (Prior to July 1, 2019 these loans were made from the corpus of CSPLF, only.) Temporary cashflow shortfalls usually occur when payments from the fund are due prior to receipt of revenue, primarily federal mineral royalties and ad valorem taxes.

A cash flow analysis spreadsheet on the following page shows the schedule of actual revenue receipts during FY20, the schedule of statutory School Foundation Program Fund payments, and the incorporation of the interfund loan from and repayment to the LSRA for FY20.

Pursuant to W.S. 21-13-316, interest was charged in FY20 (the interest provision was reinstated during the 2019 General Session, Chapter 43).

Liquidity needs were built into the State's Investment Asset Allocation Plan for the LSRA in FY20.

Historical School Foundation

## APPROVED DEPOSITORIES

The Board of Deposits (Board) approves those Wyoming banks and savings institutions that have applied for and are qualified to be an eligible state depository for the purpose of placing public funds. Below is an inclusive listing of all 42 approved depositories as of June 30, 2020. Each institution will remain on the list until its authority is revoked by the Board.

### FY20 Approved Depository List

ANB	FirsTier Bank
Bank of Bridger	Glacier Bank
Bank of Commerce	Hilltop National Bank
Bank of Jackson Hole	Jonah Bank of Wyoming
Bank of Star Valley	Lusk State Bank
Bank of the West	Pinnacle Bank
Banner Capital Bank	Platte Valley Bank
Big Horn Federal Savings Bank	Points West Community Bank
Buffalo Federal Bank	RNB State Bank
Central Bank and Trust	Rocky Mountain Bank
Cheyenne State Bank	Rolling Hills Bank & Trust
Commerce Bank of Wyoming	Security State Bank
Converse County Bank	State Bank
Cowboy State Bank	Summit National Bank
Farmers State Bank	Sundance State Bank
First Federal Bank & Trust	Uinta Bank
First Interstate Bank	US Bank
First National Bank of Gillette	Wells Fargo Bank
First Northern Bank of Wyoming	Western States Bank
First State Bank of Newcastle	Wyoming Bank & Trust
First Western Trust Bank	Wyoming Community Bank

All deposits in excess of the federally insured amount are protected by a pledge of securities, mortgage loans or Certificate of Deposit Account Registry (CDARs) in lieu of a pledge of assets to the State Treasurer as prescribed by Wyoming Statute 9-4-807.

The State Treasurer and the Department of Audit have determined that the parent bank and its branches will be considered a single entity for FDIC Insurance, Time Deposit-Open Accounts (TDOA) and other deposit programs. The parent bank will hold the depository relationship.

## TIME DEPOSIT OPEN ACCOUNT (TDOA)

The TDOA program is a discretionary State Treasurer program by which public funds are placed in banks approved as eligible state depositories (W.S. 9-4-801 thru 9-4-834). This program assists banks that lack an asset base sufficient to meet their lending needs.

Banks utilizing this program must fully collateralize the deposits and pay interest to the State Treasurer at rates set quarterly by the State Loan and Investment Board. The Board meets quarterly, in advance of each calendar quarter, to set the interest rate for the ensuing quarter.

The TDOA rates for the four quarters of FY20 were set at 2.54%, 2.26%, 1.85% and 1.07%. Therefore, the annualized TDOA rate for FY20 was actually 1.93%.

TDOA income earned in FY20 was \$2,488,407.

Only 22 of the 42 approved depositories had TDOA funds as of June 30, 2020.

### **TDOA Deposits in Wyoming Banks as of June 30, 2020 Totaled \$117,750,000.00**

Bank of Bridger	3,200,000	Jonah Bank of Wyoming	3,000,000
Bank of Jackson Hole	18,200,000	Pinnacle Bank	27,100,000
Bank of Star Valley	250,000	Platte Valley National Bank	8,400,000
Banner Capital Bank	2,800,000	Points West	3,900,000
Buffalo Federal Bank	3,300,000	Rolling Hills Bank & Trust	200,000
Central Bank & Trust	2,650,000	Security State Bank	2,000,000
Cheyenne State Bank	1,000,000	Summit National Bank	300,000
Commerce Bank of Wyoming	200,000	Uinta Bank	3,300,000
First National Bank of Gillette	7,600,000	Western State Bank	4,900,000
First Northern Bank of Wyoming	14,000,000	Wyoming Bank & Trust	250,000
FirstTier Bank	7,700,000	Wyoming Community Bank	3,500,000

## **COVID-19 Impact Assistance TDOA Program**

On April 9, 2020 the State Loan and Investment Board approved the COVID-19 Impact Assistance Time Deposit Open Account (COVID-19 TDOA) program. The COVID-19 TDOA program is designed to assist Wyoming approved public depositories with access to additional capital, specifically to offset the federal Small Business Administration (SBA) Paycheck Protection Program (PPP) loans in Wyoming.

Banks utilizing this program must be fully collateralized with SBA Loans and pay interest to the State Treasurer at rates set quarterly by the State Loan and Investment Board. The Board meets quarterly, in advance of each calendar quarter, to set the interest rate for the ensuing quarter.

The COVID-19 TDOA rate for the fourth quarter of FY20 was set at 0.25%. Therefore, the annualized TDOA rate for FY20 was 0.25%.

COVID-19 TDOA income earned in FY20 was \$4,879.

Only two of the 42 approved depositories had COVID-19 TDOA funds as of June 30, 2020 totaling \$14,700,000: Bank of Jackson Hole \$5,000,000; and Western States Bank \$9,700,000.

## **WYO-STAR**

### **Wyoming State Treasurer's Asset Reserve**

In 1987, the Wyoming State Legislature authorized any county, municipality, school district, or any other local government entity to participate in the WYO-STAR program (W.S. 9-1-416.) The Wyoming State Treasurer established an investment pool, or common fund, in which all monies are commingled for investment purposes.

The primary goal of the WYO-STAR portfolio is to pursue a short-term and extended-term fixed income investment strategy. The WYO-STAR portfolio maintains an exceptionally strong credit profile. This rigorous risk management approach has been tailored to meet the State's investment guidelines and has positioned the WYO-STAR portfolio defensively. With liquidity being the second objective, WYO-STAR guarantees the return of funds on 24 hours' notice.

J.P. Morgan Asset Management manages the WYO-STAR portfolio.

Each WYO-STAR participant has an individual interest in the pool based on the ratio of that participant's cash balance as a percentage of the total cash balance of the pool. Separate accounts are maintained for each governmental entity.

All WYO-STAR investments conform to the statute covering the State Treasurer's other investments (W.S. 9-4-831). WYO-STAR investments, conformance to state statutes and manager performance are reviewed quarterly by the State Loan and Investment Board's consultant, RVK.

As of June 30, 2020 there were 158 active WYO-STAR participants, some with multiple accounts.

The WYO-STAR pool balance on June 30, 2020 was \$796,513,216.

Participants earned \$11,373,049 in FY20.

The annualized yield for FY20 was 1.658%.

Participants can access their accounts through the Internet Participant Access System (IPAS). General information about the WYO-STAR program and forms are available on the State Treasurer's website.

## **WYO-STAR II**

### **Wyoming State Treasurer's Asset Reserve**

In 2016, the Wyoming State Legislature authorized any county, municipality, school district, or any other local government entity to participate in the WYO-STAR II program (W.S. 9-1-416 & W.S. 9-4-831(a)(xxvii)). The Wyoming State Treasurer established an investment pool, or common fund, in which all monies are commingled for investment purposes.

The primary goal of the WYO-STAR II portfolio is to pursue a long-term fixed income investment strategy. WYO-STAR II is invested in a manner to obtain the highest return possible consistent with the preservation of the corpus. WYO-STAR II does not have a guaranteed rate of return, and participants expose their investments to market losses, as well as gains. All market risks associated with the pool are assumed by the participant. With liquidity being the second objective, WYO-STAR II guarantees the return of funds to pool participants within three (3) days of request.

J.P. Morgan Asset Management manages the WYO-STAR II portfolio.

Each WYO-STAR II participant has an individual interest in the pool based on the ratio of that participant's cash balance as a percentage of the total cash balance of the pool. Separate accounts are maintained for each governmental entity.

All WYO-STAR II investments conform to the statute governing the State Treasurer's other investments (W.S. 9-4-831). WYO-STAR II investments, conformance to state statutes and manager performance are reviewed quarterly by the State Loan and Investment Board's consultant, RVK.

As of June 30, 2020 there were 27 active WYO-STAR II participants, some with multiple accounts.

The WYO-STAR II pool balance on June 30, 2020 was \$66,670,097.

Participants earned \$1,013,278 in FY20.

The annualized yield for FY20 was 2.474%.

Participants can access their accounts through the Internet Participant Access System (IPAS). General information about the WYO-STAR II program, daily rate information and forms are available on the State Treasurer's website.

## Spending Policy for FY2020

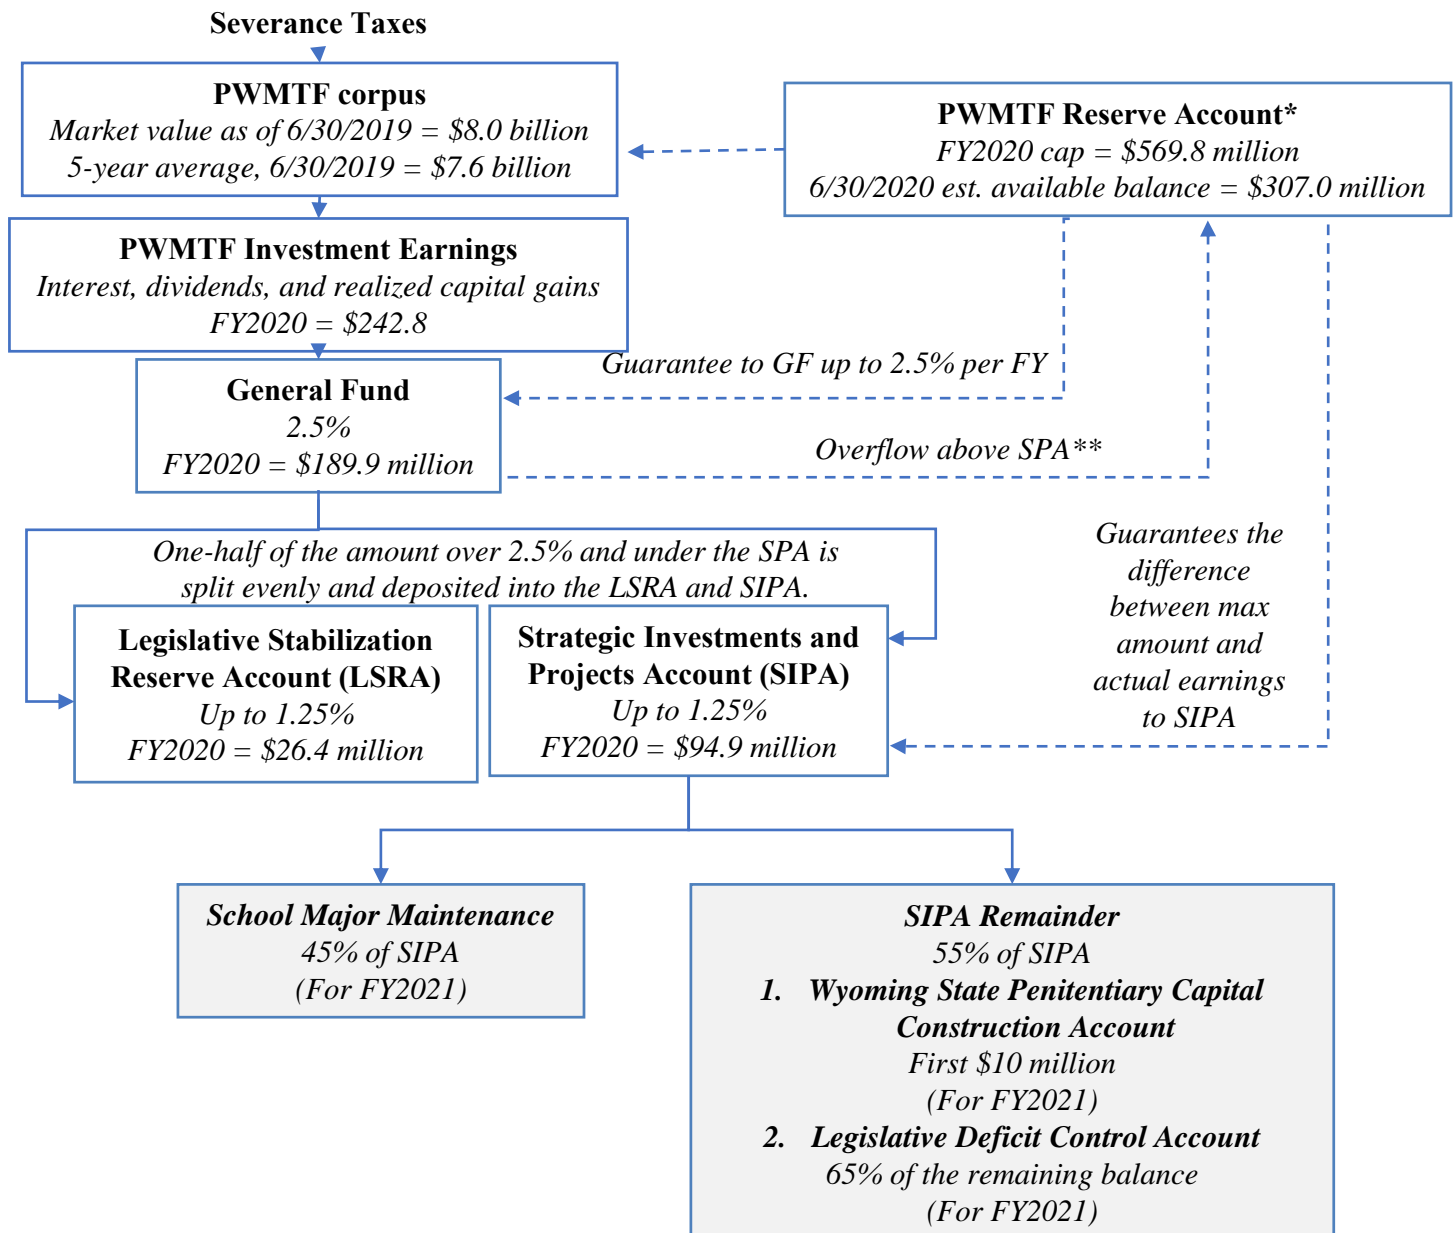

## Permanent Wyoming Mineral Trust Fund (PWMTF)

**W.S. 9-4-719**

The **Spending Policy Amount** (SPA) for FY2020 is 5% of the 5-year average market value of the PWMTF corpus. W.S. 9-4-719(a) outlines the purpose of the spending policy as:

(a) The purpose of this section is to establish a spending policy for earnings on permanent fund investments to provide, in descending order of importance:

- (i) Consistent, sustainable flow of earnings for expenditure over time;
- (ii) Protection of the corpus of the permanent funds against inflation; and
- (iii) To the extent practicable, increases in earnings available for expenditure to offset the effects of inflation.

**Notes:**

\* For future years, the SPA will change as follows: FY2020-2022 = 5%, FY2023 = 4.75%, FY2024 = 4.5%

\*\*Excess over 150% of the SPA in the PWMTF Reserve Account goes back to the PWMTF corpus.

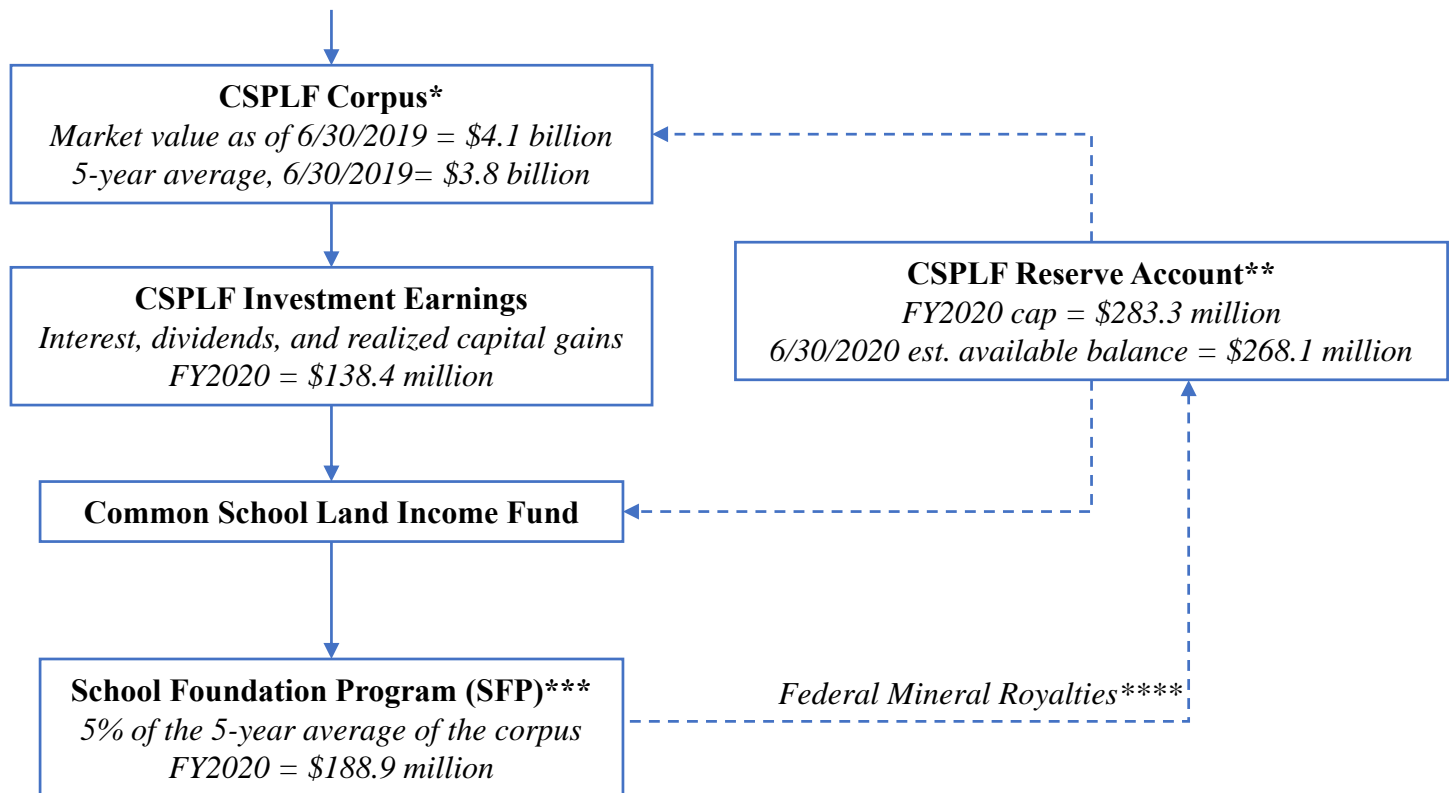

**Spending Policy Reserve Account for FY2020**  
**Common School Permanent Land Fund (CSPLF)**  
**W.S. 9-4-719**

The **Spending Policy Amount (SPA)** for FY2020 is 5% of the five-year average of the value of the corpus.\* W.S. 9-4-719(a) outlines the purpose of the spending policy as:

(a) The purpose of this section is to establish a spending policy for earnings on permanent fund investments to provide, in descending order of importance:

- (i) Consistent, sustainable flow of earnings for expenditure over time;
- (ii) Protection of the corpus of the permanent funds against inflation; and
- (iii) To the extent practicable, increases in earnings available for expenditure to offset the effects of inflation.

**Sale of school lands, at least 2/3 of production  
and sale of state mineral royalties, easements,  
surface damage payments, etc.**

**Notes:**

\* Market value may be adjusted pending research on CSPLF II.

\*\*The SPA is “guaranteed” from the CSPLF Reserve Account to the Common School Land Income Fund. The excess within the CSPLF Reserve Account over 150% of the SPA is directed to the CSPLF corpus (automatic appropriation).

\*\*\*For future years, the SPA will change as follows: FY2020-2024 = 5%, FY2025 = 4.75%, FY2026 = 4.5%

\*\*\*\*There is an automatic appropriation to the CSPLF Reserve Account from FMR amounts exceeding \$200 million that would otherwise be deposited in the SFP for any amounts in excess of the SPA.

# Spending Policy Reserve Account for FY2020

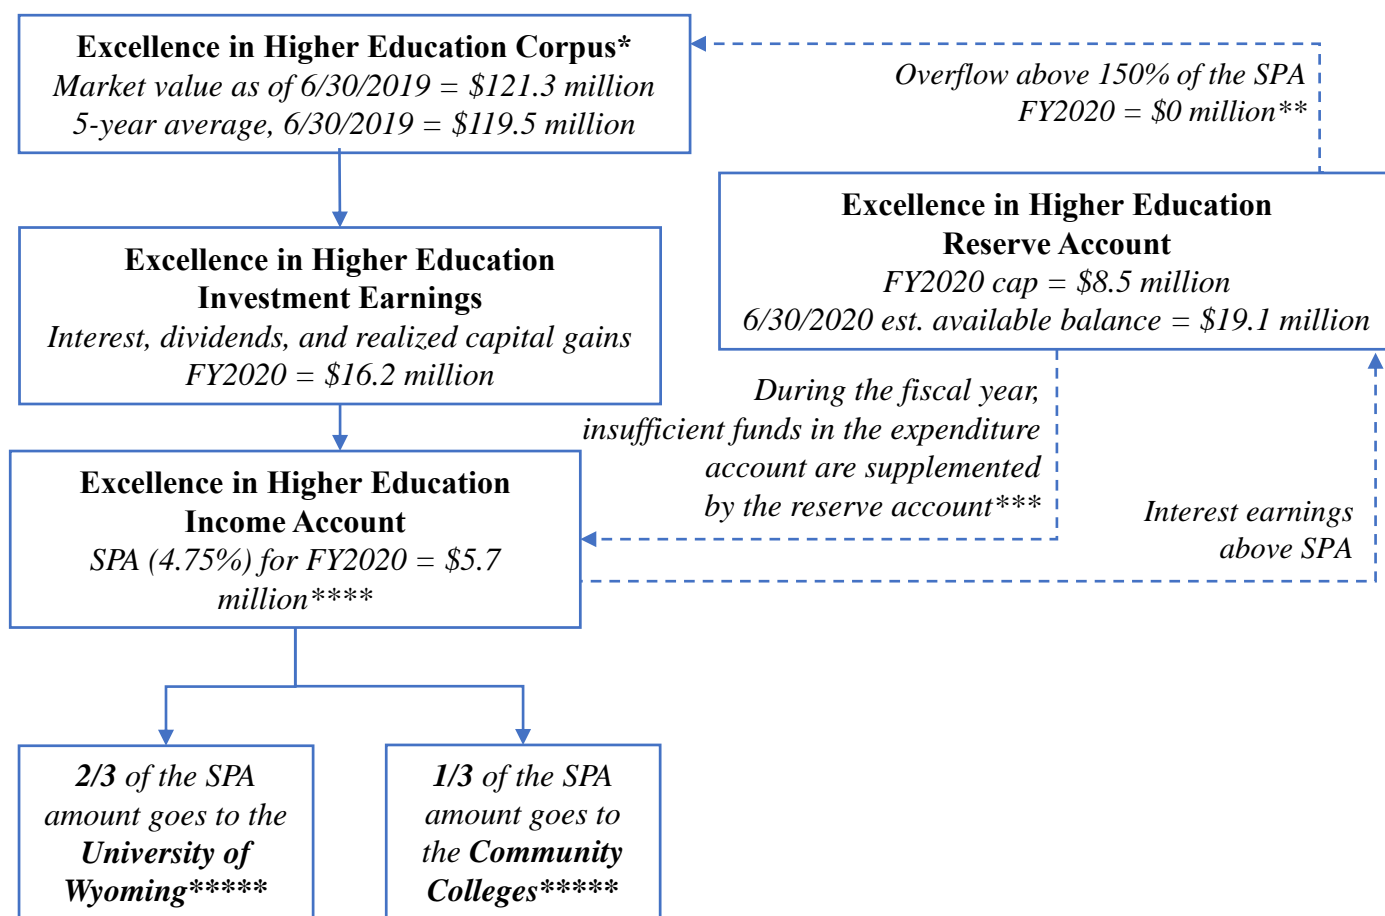

## Excellence in Higher Education Endowment Program

### W.S. 9-4-719

The **Spending Policy Amount (SPA)** for FY2020 is 4.75% of the 5-year average market value of the Excellence in Higher Education corpus. W.S. 9-4-719(a) outlines the purpose of the spending policy as:

(a) The purpose of this section is to establish a spending policy for earnings on permanent fund investments to provide, in descending order of importance:

- (i) Consistent, sustainable flow of earnings for expenditure over time;
- (ii) Protection of the corpus of the permanent funds against inflation; and
- (iii) To the extent practicable, increases in earnings available for expenditure to offset the effects of inflation.

#### Notes:

\*A portion of the federal mineral royalties over the \$200 million cap that would have been deposited in the School Foundation Program Account were deposited in the Excellence in Higher Education fund (corpus) until the maximum of \$105 million was achieved. It was fully funded in FY2008.

\*\* 2018 Session Laws, Ch.134, Sec. 300(e) specifies no funds within the reserve account shall be credited to the corpus between March 15, 2018 and June 30, 2020.

\*\*\* Pursuant to W.S. 9-4-719(n) the supplement for insufficient funds from the Excellence in Higher Education Reserve Account is limited to one-half of the difference between the investment income earned and the SPA.

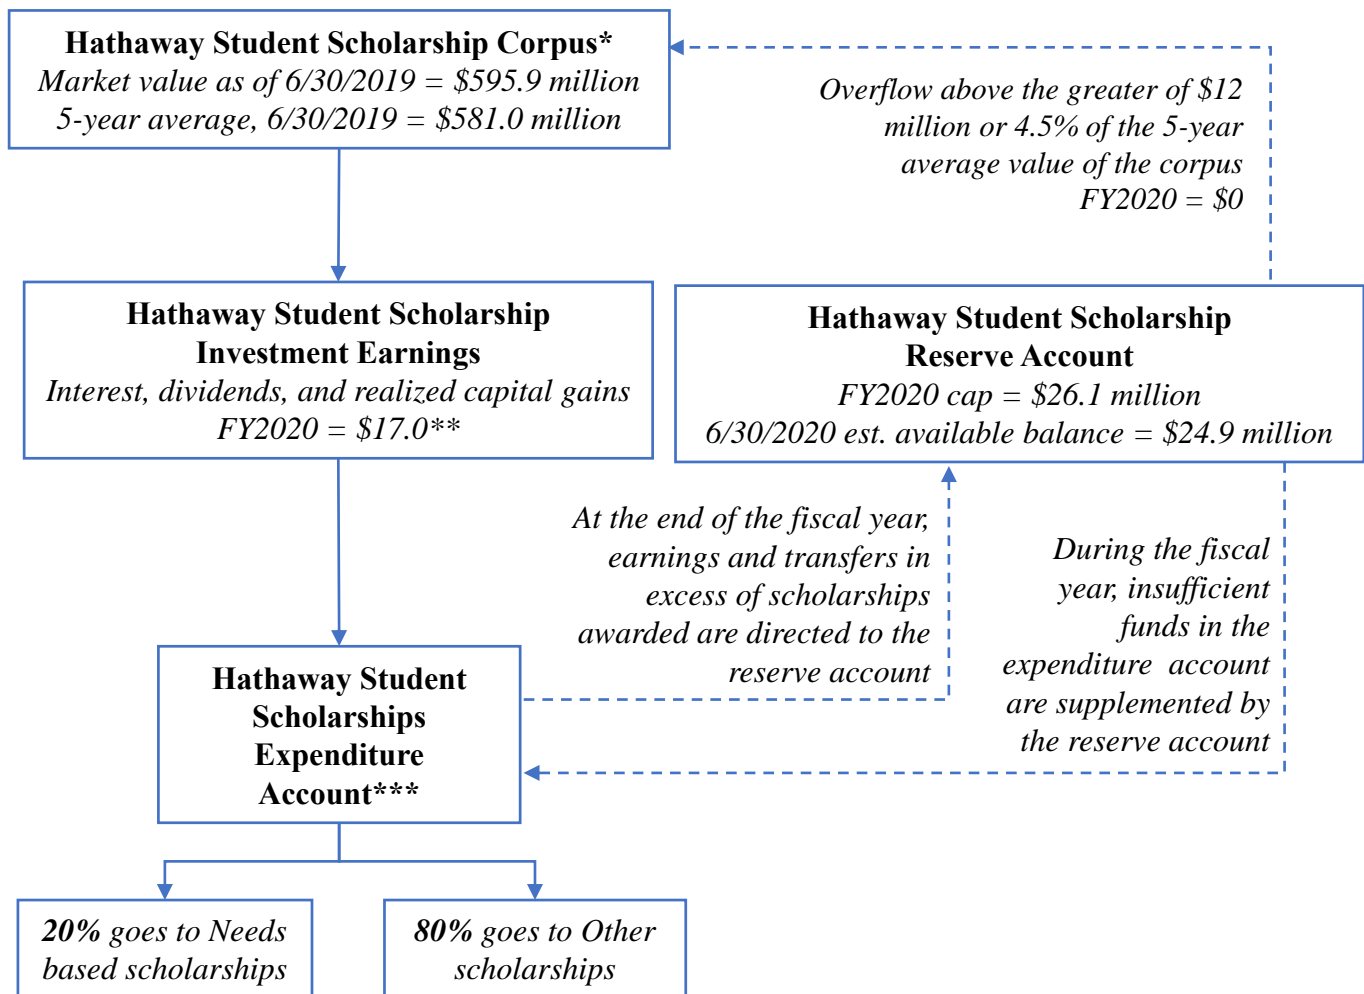

\*\*\*\* STO reported a correction to the distribution amount for FY2019 of approximately \$185,000 that impacts the FY2020 distribution amount.

\*\*\*\*\* Pursuant to W.S. 21-16-1201(c), the institutions shall only expend 90% of the distributions in fiscal years in which the SPA is reached or exceeded.

# **Spending Policy Reserve Account for FY2020** **Hathaway Student Scholarship Endowment Program** **W.S. 21-16-1302**

The **Spending Policy Amount (SPA)** for this account is established as the amount necessary to fund scholarships for Wyoming students to attend the University of Wyoming and community colleges, if students meet legislatively established criteria, pursuant to W.S. 21-16-1303 through 1306.

**Notes:**

\*A portion of the federal mineral royalties over the \$200 million cap that would have been deposited in the School Foundation Program Account were deposited in the Hathaway Student Scholarship fund (corpus) until the maximum of \$400 million was achieved. It was fully funded in FY2007. Pursuant to 2008 Session Laws, Ch. 48, Section 3, Section 027, Footnote 2, an additional \$50 million was appropriated from the federal coal lease bonus sales to the Hathaway Student Scholarship fund (corpus).

\*\* Based on amount reported by STO which varies from actual transaction in WOLFS.

\*\*\* \$18.3 million was paid out in scholarships in FY2020.

NOTES:

- The "over \$200 million FY20" distribution was completed September 2020.

- Mineral Royalties are distributed quarterly to Cities & Towns and State Agencies but monthly to the School Foundation Program.

## CAPITAL FACILITIES REVENUE BONDS

Wyoming Statute 9-4-605 authorizes the State Loan and Investment Board to borrow up to \$105 million through the issuance of revenue bonds for capital construction purposes. Funds for the payment of principal and interest on these bonds is restricted to the federal mineral royalties distributed to the school foundation program or to the highway construction funds.

<b>SERIES</b>	<b>AMOUNT ISSUED</b>	<b>INTEREST RANGE %</b>	<b>BONDS OUTSTANDING JULY 1, 2019</b>	<b>PRINCIPAL PAYMENTS FY20</b>	<b>YEAR OF MATURITY</b>	<b>BALANCE JUNE 30, 2020</b>

2024	\$3,030,000	\$100,600
2025	\$1,775,000	\$17,750

## **BOND GUARANTEE AND BOND SUPPLEMENTAL COVERAGE PROGRAMS**

The Wyoming State Legislature established a bond guarantee program for school districts during the 1994 legislative session, and it established a bond supplemental coverage program for University of Wyoming bonds during the 2011 legislative session as described below.

### **School District Bond Guarantee Program**

Wyoming Statute 9-4-1001 authorizes the State Loan and Investment Board to guarantee school district general obligation bonds issued under W.S. 21-13-701 through 21-13-721. However, the 2002 Legislature closed the state guarantee for future issues, except for the refunding of bonds issued on or before November 1, 2001. This program was repealed effective July 1, 2020.

The State Treasurer was authorized to pledge up to \$300 million from the Common School Permanent Land Fund to guarantee the school district bonds. The program was intended to benefit school districts by guaranteeing payment of bonded indebtedness of creditworthy districts by reducing the interest rate at which the bonds may be issued.

If a district failed to deposit sufficient debt service monies with the State Treasurer, funds were advanced from the Common School Permanent Land Fund. Repayment to the Common School Permanent Land Fund was made from the district's next payments from the School Capital Construction account and the School Foundation Fund.

As of June 30, 2020 the State Loan and Investment Board approved to guarantee school district bond issues with an original amount totaling \$169,639,000. Of these, all issues have been paid and \$0.00 is outstanding. The final principal and interest payment of \$353,500 for the Fremont County School District #1 2012 bond was received June 5, 2020.

### **University of Wyoming Revenue Bond Supplemental Coverage Program**

W.S. 9-4-1003 authorizes the State Loan and Investment Board to provide supplemental coverage for repayment of revenue bonds issued by the University of Wyoming under W.S. 21-17-402 through 21-17-450. This program is intended to benefit the University of Wyoming by reducing the interest rate at which the bonds may be issued.

## **University of Wyoming**

### **Revenue Bond Supplemental Coverage Program (cont.)**

If the University fails to deposit sufficient debt service monies with the State Treasurer within a certain time period, funds necessary to make the revenue bond payments will be advanced from Federal Mineral Royalty revenue received in excess of \$200 million that would otherwise be distributed to the Budget Reserve account. Repayment to the Budget Reserve account is to be made from the University's general fund.

In 2011, the State Loan and Investment Board approved supplemental coverage for the first bond issued by the University for facility improvements and refunding revenue bonds. In 2016, the 2011A portion of this bond was defeased through an advance refunding. The 2011B bond remains with an outstanding amount of \$3,395,000 as of June 30, 2020.

As of June 30, 2012 the State Loan and Investment Board approved supplemental coverage for one bond issued by the University for facility improvements and for refunding revenue bonds in the amount of \$39,655,000. Of this amount, \$26,445,000 remains outstanding as of June 30, 2020.

## ENDOWMENT CHALLENGE FUND MATCHING PROGRAMS

There were six endowment challenge fund matching programs administered by the State Treasurer's Office as of June 30, 2020 involving 33 eligible institutions.

These matching programs are incentive based to encourage donations to the institutions. When the institution receives a pledge of an endowment gift a commitment form is submitted to the State Treasurer's Office to encumber funds within the endowment fund. When the institution collects the pledge or receives a qualifying contribution, a request is submitted to the State Treasurer's Office for a distribution of matching funds from the endowment fund associated with that institution.

Upon receiving the match, the institution transfers the gift and match to its foundation, where it is invested and held inviolate. Only the earnings may be spent for the purposes of the endowment specified, with two exceptions: the University of Wyoming Athletics and Academic Facilities programs. The University of Wyoming programs may spend all of these funds for the costs of establishing new or renovating existing university facilities as approved by the university president and the board of trustees.

The first appropriation to an endowment challenge fund matching program occurred in fiscal year 2001. The Wyoming State Legislature has appropriated matching funds totaling \$283.9 million as of June 30, 2020.

Following is a list of the endowment challenge fund matching programs authorized by state statutes as of June 30, 2020 that are to be administered by the State Treasurer:

- The University of Wyoming (UW) Endowment Challenge Program  
W.S. 21-16-901 through 21-16-904 established in fiscal year 2001
- The University Athletics Challenge Account  
W.S. 21-16-1001 through 21-16-003 established in fiscal year 2004
- The University Academic Facilities Challenge Account  
W.S. 21-16-1401 through 21-16-1403 established in fiscal year 2006
- The Community College Challenge Program, seven (7)  
W.S. 21-16-1101 through 21-16-1104 established in fiscal year 2004
- The Wyoming Public Library Endowment Challenge Program, twenty-three (23)  
W.S. 18-7-201 through 18-7-205 established in fiscal year 2009
- The Community College District Program, seven (7)  
SL2020 CH80 SEC333(c) established in fiscal year 2020

The community college challenge program has a statutory provision (W.S. 21-16-1004(f)(ii)(iv)) that allows colleges to enter into an agreement permitting one college to encumber and collect funds in excess of the amount within their challenge account by using unencumbered funds from another college. The statute does stipulate, however, that the match disbursed by the State Treasurer must be divided equally between the colleges participating in the agreement.

The following tables display the appropriations, commitments and payments for the University, Community Colleges and Public Library Endowment challenge programs since their inception.

<b>UNIVERSITY AND COMMUNITY COLLEGE ENDOWMENT CHALLENGE PROGRAMS</b>				
<b>Inception through June 30, 2020</b>

## WYOMING UNCLAIMED PROPERTY

Wyoming enacted the Uniform Unclaimed Property Act (W.S. 34-24-101 through 34-24-139) in 1993. This law requires banks, insurance companies and many other types of entities, known as holders, to transfer to the Wyoming State Treasurer's Office personal property considered abandoned by owners.

These "unclaimed" properties include a wide variety of sources, such as utility deposits, savings or checking accounts, stocks or mutual funds, uncashed dividends or payroll checks, refunds, unused traveler's checks, trust distributions, unredeemed money orders, insurance payments or refunds, life insurance policies, annuities, certificates of deposit, customer overpayments, mineral royalty payments and/or safe deposit box contents.

### TYPES OF PROPERTY REPORTED

The Unclaimed Property Division takes custody of these unclaimed properties and maintains an indefinite obligation to reunite the property with the rightful owners and/or heirs. In essence, the State acts as the custodian and/or fiduciary of the funds and stands in the shoes of the owner. The State makes a concerted effort to locate and refund all property at no cost.

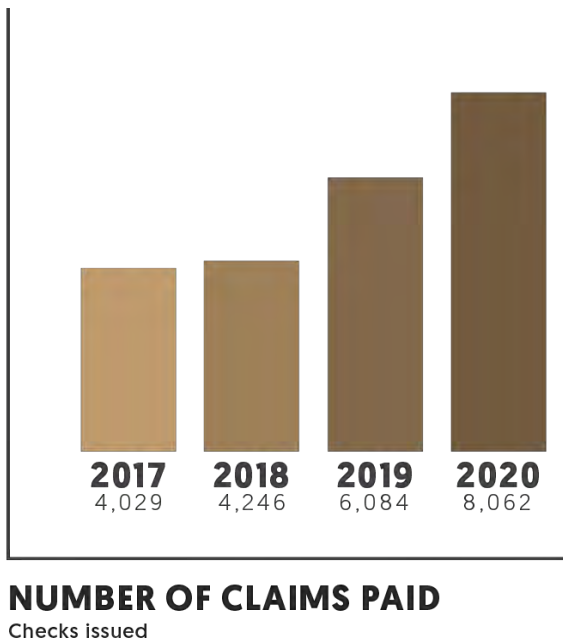

Over the last fiscal year, the division received more than 76,000 new properties. The division currently maintains records for approximately 848,000 owners/accounts, totaling more than \$91 million.

In FY20, more than \$9.46 million was received and over \$5.125 million returned, which equates to a return rate over 54 percent. Since 1993 the division has received more than \$150 million. At the start of the new fiscal year, nearly \$60 million had been returned to the rightful owner or heir(s) since the program's inception.

One of the division's greatest accomplishments of FY20 was another increase in the number of claims that

### FY20 OVERVIEW

were paid out. Looking over the past four years, the number of checks issued has increased from 4,029 in FY17 to 4,246 in FY18, 6,084 in FY19 and then 8,062 in FY20 – an increase of more than 100 percent, as well as a 32.5 percent bump over the past year.

The Unclaimed Property Division started outreach visits across the State in the summer of 2019, traveling to two or three counties most months. The Division coordinated these visits with local County Courthouses to set up a mobile office in high-traffic areas. This effort was going strong and was one of the key reasons for the increase in checks issued. The COVID-19 pandemic put a halt to these efforts in March, however. A few local visits took place in the summer of 2020, but a complete resumption of this service will not happen until next spring, at the earliest.

Another accomplishment during FY20 was a new, streamlined look for the division’s website ([www.mycash.wyo.gov](http://www.mycash.wyo.gov)). The updated site includes instructional videos for claimants, as well as holders. In addition, the coding structure for the new site makes updates/changes a much easier task, allowing for more up-to-date information and news items to be displayed.

Financial institutions have been holding on to most of abandoned safe deposit contents since the inception of Wyoming’s Unclaimed Property laws. In FY21, Unclaimed Property is looking to bring a majority of the safe deposit box contents on site. This effort will help these financial institutions eliminate storage liabilities. In addition, we intend to conduct an auction for the contents that have not been claimed for three or more years.
