REPORT OF
The State Treasurer

Recommendations and Remarks

This report has been prepared with a view of giving full information in detail of all fiscal transactions of the past two years. Each cash fund is reported separately, showing the amounts received and expended in each case, and a detailed statement of the condition of the appropriation accounts is also given.

The volume of business and amount of detail required for the safe handling and proper accounting of the funds has steadily grown. The constant growth of the Permanent Land Funds from royalties and the sales of public lands has greatly increased, which requires more detail in the matter of purchasing and handling securities representing investments of these funds.

Owing to the large number of cash funds and the liability to confusion of titles, reference to the law creating the fund or governing its use is given in each case.

General Fund.

The condition of what is known as the General Fund of the State, from which practically all appropriations for the running expenses of State government are paid, is in a general way an index of the general financial condition of the State, and its ability to meet current demands. At the time of the last biennial report of this office (September 30, 1920) it was shown that if all warrants drawn against the General Fund had been presented and paid, there would have been an overdraft at that time of \$81,291.15, and there was still three months' expense to accrue before there would be any material relief. The same condition exists at this time. On September 30, 1922, had all warrants been presented and paid, the General Fund would be overdrawn \$71,427.57. For the year 1921 tax levied for the General Fund was \$1,325,773.72, as compared with \$715,931.00, approximate levy for the year 1922. Therefore, it is obvious that the condition is not one to warrant extravagance in future appropriations.

Delinquent State Tax.

The amount of delinquent State tax and accrued interest thereon to September 30, 1922, is considerably larger than at the corresponding date two years ago. For the period ending September 30, 1920, the delinquent tax amounted to \$86,738.61, while for the period ending September 30, 1922, it is \$284,860.90, although when considered upon a percentage basis, the condition is about the same as usually prevails. In this connection attention is called to the statements showing the percentage of taxes collected.

These figures are exclusive of interest upon delinquent tax for said years, and the showing is in every respect gratifying and reflects credit upon the county treasurers who have collected the State tax and paid it into the Treasury.

I have been advised that a great part of this delinquency is due to the fact that various counties are withholding the State tax to enable them to cover themselves on account of reimbursement which they claim to be due them on account of Soldier Exemptions, the Attorney General having rendered an opinion that the State is without authority to reimburse counties in the method or manner prescribed in Chapter 50 of the Session Laws of Wyoming for 1921.

I would recommend at this time that the statute relating to the collection of Car Company Tax be amended so that the collection of this tax would be through the several counties as heretofore, instead of through the State Board of Equalization, and State Treasurer, as I believe that it would be more satisfactory to all concerned.

The Land Funds.

Receipts from the Land Department continue to grow in volume. The total receipts from this department during the last two years have been \$5,253,400.16 as compared with \$3,430,608.78 for the two years preceding, and \$1,933,628.76 for the two years before that. These figures include only the actual amounts received from the Commissioner of Public Lands, and are exclusive of amounts received from other sources, but which may be properly credited to our land income. These would include the five per cent of sales of United States lands, \$13,750.43; interest upon investments of permanent land funds, \$637,525.96; interest on deposits of land funds (including interest on Trust Funds received from Land Department), \$64,084.28, and funds

received from the United States as royalty on production of oil and other minerals \$2,492,320.86; a grand total of \$8,461,081.69, from land sources. Of this amount there has been disbursed to counties for the benefit of public schools \$1,615,532.10.

Investments.

During the past two years the State Treasurer has purchased as an investment of the permanent land funds, bonds of Counties, School Districts, Municipalities, United States, and bonds of this State, to the amount of \$3,327,400.00. The total amount of bonds held September 30, 1922, is \$7,368,227.00. These figures are exclusive of State Warrants held in investment accounts. The Treasurer has continued the practice of former years of investing permanent funds in Wyoming State Warrants whenever there has been a temporary lack of funds for payment of same when presented. This plan not only saves the State the interest upon said warrants which would otherwise be paid to the individual holders of the warrants, but the credit of the State is also maintained by the prompt acceptance of all warrants drawn upon the Treasury.

The Bonded Debt.

During the past two years \$18,000.00 of Public Building bonds have been paid, and \$610,000.00 of Wyoming State Highway bonds have been paid, and there now remains \$3,804,000.00 of bonded indebtedness, as follows:

Public Building Bonds, issued in 1888, due \$9,000.00 each year beginning July 1, 1919, 6%-----	\$ 54,000.00
State Highway Bonds issued in 1919 and 1920, due July 1, 1939, optional after ten years, 4.5%-----	\$1,950,000.00
State Highway Bonds issued September 1, 1921, due September 1, 1941, optional after ten years, 5%	\$1,800,000.00
Total -----	\$3,804,000.00

A statement in detail is included in this report showing the total amount of bonds issued and amounts paid to September 30, 1922.

Interest on Deposits and Investments.

The State Treasurer has collected in interest upon deposits with banks within the State during the last two years, a total of \$155,460.34, an increase over the two years preceding of \$25,131.33, and in interest on investments \$653,742.24, an increase of \$359,749.68 over the two years preceding, making a total interest of \$809,202.58, and a total increase of \$384,881.01 over the preceding two years.

Trust Funds.

These funds are held by the State Treasurer in escrow, or awaiting the fulfillment of certain conditions, and are thus reported and accounted for. The funds come almost entirely from the Commissioner of Public Lands, and represent in a large proportion funds deposited by prospective purchasers of State lands, as guarantee that they will bid the minimum price for same when title has been secured by the State, and the land is offered for sale. From this source the State Treasurer has received a total of \$260,682.91. The following is a statement of Trust Funds received and disbursed during the period covered by this report:

Balance October 1, 1920	\$ 94,655.66
Received	260,682.91

Total amount to account for	\$355,338.57
Disbursed	312,168.84

Balance September 30, 1922	\$ 43,169.73
----------------------------	--------------

The following detailed statements show the financial transactions of the past two years, and the condition of the Treasury at the present time.

Respectfully submitted,

A. D. HOSKINS,

State Treasurer.
